Greater Khorasan Rocco Rante,2015-03-10 The modern sense of “Greater Khorasan” today corresponds to a territory which not only comprises the region in the east of Iran but also, beyond Iranian frontiers, a part of Afghanistan and Turkmenistan. In the past this entity was simply defined as Khorasan. In the Sassanid era Khorasan defined the “Eastern lands”. In the Islamic era this term was again taken up in the same sense it previously enjoyed. The Arab sources of the first centuries all mention the eastern regions under the same toponym, Khorasan. Khorasan was the gateway used by Alexander the Great to go into Bactria and India and, inversely, that through which the Seljuks and Mongols entered Iran. In a diachronic context Khorasan was a transit zone, a passage, a crossroads, which, above all in the medieval period, saw the creation of different commercial routes leading to the north, towards India, to the west and into China. In this framework, archaeological researches will be the guiding principle which will help us to take stock of a material culture which, as its history, is very diversified. They also offer valuable elements on commercial links between the principal towns of Khorasan. This book will provide the opportunity to better know the most recent elements of the principal constitutive sites of this geographical and political entity.

Discoveries in the Judaeen Desert XXXVII Émile Puech,2008-12-04 This volume (in French) contains the editio princeps of the second part (4Q550-583) of the Aramaic texts from Cave 4 at Qumran which were originally assigned to Pere Jean Starcky (4Q521-578). The first part of the Aramaic texts were published in volume XXXI of the Discoveries in the Judaeen Desert series, while the Hebrew texts were published in volume XXV. These Aramaic and Hebrew texts include primarily parabiblical and pseudepigraphical compositions, often named 'Apocryphon', 'Testament', 'Pseudo-', or 'Visions'. They reflect the interest in biblical themes characteristic of Second Temple period Judaism, and exhibited in many of the Qumran compositions.
