Everyday Objects Tara Hamling,Catherine Richardson,2016-12-14 This book is about the objects people owned and how they used them. Twenty-three specially written essays investigate the type of things that might have been considered 'everyday objects' in the medieval and early modern periods, and how they help us to understand the daily lives of those individuals for whom few other types of evidence survive - for instance people of lower status and women of all status groups. *Everyday Objects* presents new research by specialists from a range of disciplines to assess what the study of material culture can contribute to our understanding of medieval and early modern societies. Extending and developing key debates in the study of the everyday, the chapters provide analysis of such things as ceramics, illustrated manuscripts, pins, handbells, carved chimneypieces, clothing, drinking vessels, bagpipes, paintings, shoes, religious icons and the built fabric of domestic houses and guild halls. These things are examined in relation to central themes of pre-modern history; for instance gender, identity, space, morality, skill, value, ritual, use, belief, public and private behaviour, continental influence, materiality, emotion, technical innovation, status, competition and social mobility. This book offers both a collection of new research by a diverse range of specialists and a source book of current methodological approaches for the study of pre-modern material culture. The multi-disciplinary analysis of these 'everyday objects' by archaeologists, art historians, literary scholars, historians, conservators and museum practitioners provides a snapshot of current methodological approaches within the humanities. Although analysis of material culture has become an increasingly important aspect of the study of the past, previous research in this area has often remained confined to subject-specific boundaries. This book will therefore be an invaluable resource for researchers and students interested in learning about important new work which demonstrates the

potential of material culture study to cut across traditional historiographies and disciplinary boundaries and access the lived experience of individuals in the past.

Proceedings of the 4th International Conference on Language, Art and Cultural Exchange (ICLACE 2023) Bootheina Majoul,Guiyun Guan,Nick Groom,2023-08-28 This is an open access book. The 4th International Conference on Language, Art and Cultural Exchange (ICLACE 2023) will be held on May 19-21, 2023 in Hangzhou, China. Culture includes language, which is a special cultural phenomenon. For culture, most scholars agree that it mainly includes two aspects: material culture and spiritual culture. Specific examples to show cultural phenomena will be of great benefit to our understanding. Some examples of material culture are listed here: Indian women wear saris, Japanese like to eat sashimi, and Chinese like to shake hands when meeting each other. These are various manifestations of material culture in different nations. Language is the mode of transmission of culture. Language is one of the most important ways of thinking and cultural exchange of human beings, which is actually the manifestation of the formation and transmission of culture. Because of thinking, human beings gradually create culture in the continuous social practice, and then spread their national culture to each other in the continuous language exchange. Since ancient times, art and culture have been going hand in hand and complementing each other. On the one hand, art is an important connotation and component of culture, and the progress of art is the driving force of cultural development. On the other hand, culture is the source and content of art, and the prosperity of culture is the key to improve the level of art. On the other hand, culture is the source and content of art, and the prosperity of culture is the key to improving the level of art. Therefore, whether it is culture or art, it is not only a symbol of an era, a representation of people's life style, but also a guide to the direction of social development. The relationship between language, art and cultural communication is a hot topic for many scholars to study at present. Therefore, an academic conference is set up for authors to discuss related research issues and exchange new ideas, hoping that scholars can burst out more excellent and valuable ideas in this conference. ICLACE 2023 is to bring together innovative academics and industrial experts in the field of Literature, Art and Cultural Exchange research to a common forum. The primary goal of the conference is to provide a platform for scientists, scholars, and engineers from all over the world to present ongoing research activities, fostering the research and business relations and promoting scientific information interchange and cooperation between all the participants.

Shaping Femininity Sarah Bendall, 2021-10-07 Highly Commended, Society for Renaissance Studies Biennial Book Prize 2022 In sixteenth and seventeenth-century England, the female silhouette underwent a dramatic change. This very structured form, created using garments called bodies and farthingales, existed in various extremes in Western Europe and beyond, in the form of stays, corsets, hoop petticoats and crinolines, right up until the twentieth century. With a nuanced approach that incorporates a stunning array of visual and written sources and drawing on transdisciplinary methodologies, *Shaping Femininity* explores the relationship between material culture and femininity by examining the lives of a wide range of women, from queens to courtiers, farmer's wives and servants, uncovering their lost voices and experiences. It reorients discussions about female foundation garments in English and wider European history, arguing that these objects of material culture began to shape and define changing notions of the feminine bodily ideal, social status, sexuality and modesty in the early modern period, influencing enduring Western notions of femininity. Beautifully illustrated in full colour throughout, *Shaping Femininity* is the first large-scale exploration of the materiality, production, consumption and meanings of women's foundation garments in sixteenth and seventeenth-century England. It offers a fascinating insight into dress and fashion in the early modern period, and offers much of value to all those interested in the history of early modern women and gender, material culture and consumption, and the history of the body, as well as curators and reconstructors.

Creating the Perfect Form Janet Wood, 2024-05-30 How can the cut of a 19th century gown control its shape? Can you re-create a historic profile from a contemporary mannequin? How can paintings help you analyse historic silhouettes and the corsets and petticoats worn underneath? Conservation and historic dress display specialist Janet Wood will help you answer all these questions. You'll learn how historic garments can be safely handled and shown to best effect, with insight into the characteristic features of each piece and how to translate them from the garment to a display support. Concentrating on Western women's wear from 1750-1950, and with over 250 colour images, plus drawings and charts, you'll learn how to interpret an individual garment's display needs and create safe, appropriate display forms.

Cutting for All! Kevin L. Seligman, 1996 Containing 2,729 entries, Kevin L. Seligman's bibliography concentrates on books, manuals, journals, and catalogs covering a wide range of sartorial approaches over nearly five hundred years. After a historical overview, Seligman approaches his subject chronologically, listing items by century through 1799, then by decade.

In this section, he deals with works on flat patterning, draping, grading, and tailoring techniques as well as on such related topics as accessories, armor, civil costumes, clerical costumes, dressmakers' systems, fur, gloves, leather, military uniforms, and undergarments. Seligman then devotes a section to those American and English journals published for the professional tailor and dressmaker. Here, too, he includes the related areas of fur and undergarments. A section devoted to journal articles features selected articles from costume- and noncostumerelated professional journals and periodicals. The author breaks these articles down into three categories: American, English, and other. Seligman then devotes separate sections to other related areas, providing alphabetical listings of books and professional journals for costume and dance, dolls, folk and national dress, footwear, millinery, and wigmaking and hair. A section devoted to commercial pattern companies, periodicals, and catalogs is followed by an appendix covering pattern companies, publishers, and publications. In addition to full bibliographic notation, Seligman provides a library call number and library location if that information is available. The majority of the listings are annotated. Each listing is coded for identification and cross-referencing. An author index, a title index, a subject index, and a chronological index will guide readers to the material they want. Seligman's historical review of the development of publications on the sartorial arts, professional journals, and the commercial paper pattern industry puts the bibliographical material into context. An appendix provides a cross-reference guide for research on American and English pattern companies, publishers, and publications. Given the size and scope of the bibliography, there is no other reference work even remotely like it.

Theatrical Costume, Masks, Make-Up and Wigs Sidney Jackson Jowers, 2013-10-15 This is the first bibliography in its field, based on first-hand collations of the actual articles. International in scope, it includes publications found in public theatre libraries and archives of Barcelona, Berlin, Brussels, Budapest, Florence, London, Milan, New York and Paris amongst others. Over 3500 detailed entries on separately published sources such as books, sales and exhibition catalogues and pamphlets provide an indispensable guide for theatre students, practitioners and historians. Indices cover designers, productions, actors and performers. The iconography provides an indexed record of over 6000 printed plates of performers in role, illustrating performance costume from the 18th to 20th century.

Patterns of Everyday Life David Waines, 2022-04-19 This volume deals with fundamental aspects of the material life of Islamic societies in the formative period. Three broad sections comprise the scope of the book: the first on housing, the second on textiles and clothing, and the final one on food and drink. In each section, studies based upon both archaeological and literary sources are included. The aim of the collection is to highlight features of continuity between the pre-Islamic cultures of the Middle East and those other aspects which were introduced as a consequence of the development and spread of the Islamic religious tradition. The editor's introduction to the volume reviews the developments and current trends in

each area, and notes the problems in constructing knowledge of the material civilisation of the early Islamic period.
