The 48 Laws of Power by Robert Greene is a self-help book offering advice on how to gain and maintain power, using lessons drawn from parables and the experiences of historical figures. Power depends on the relationships between a person and those he or she seeks to control. Powerful people must cultivate their appearances to earn respect and eliminate doubt. They must practice selective honesty, misdirection, and an excess of secrecy to gain a tactical advantage. Timing is central to maintaining power, as is the ability to adapt. The array of strategies available when seeking power include mirroring the opponent's actions and controlling the opponent's options for action. The powerful must also cultivate a relationship with audiences by creating spectacles and feeding their need to believe in the impossible. The 48 Laws of Power Robert Greene, 2023-10-31 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control. This is the only authorized hardcover edition in the US. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Preview: The Daily Stoic by Ryan Holiday and Stephen Hanselman is an introduction to the practical application of Stoic philosophy in the format of a daily devotional. Often derided as discouraging emotion, Stoicism is a philosophy that encourages discipline, fortitude, and control of perceptions. The greatest possession of a Stoic is reasoned choice, which cannot be taken away. There are three disciplines in the practice of Stoicism. Perception is the first discipline; it focuses on the need for accurate and unbiased observation of the world. This requires clarity of thought free from external influences or extreme emotions. This internal peace is reflected in the Stoic's externally calm demeanor. A Stoic must be self-aware and have an unbiased perception of himself or herself. Action is the second discipline of Stoicism. Stoics act in the best interest of the self and others according to their values and the character they want to cultivate...
