**From Warrior to Judge the Biography of Wahshashowahtinega Bill Nixon Hapashutsy of the Osage Tribe 1843 To 1917** Guy (Redcorn) Nixon,2012 Born of mixed blood parents Bill's father died before he was born from a buffalo hunting accident. Adopted by his mothers new husband he would be educated and grow to be an Osage Warrior to fight for the rights of Native Americans and his families very survival. He would eventually be commissioned a Second Lieutenant and serve in the Army of General Stand Watie fighting for citizenship, Congressional Representation and the right to live in freedom. As Native Americans they were denied American Citizenship and the right to vote and even after the American Civil War they could still be legally owned as slaves. After the war he would work hard in the reconstruction of his people's homeland giving rise to the Osage Nation. Serving in law enforcement he would rise to become a judge. In his lifetime he went from participating on the buffalo hunts of his people to driving automobiles and the wonders of flight. However, the rights he and his fellow warriors fought for would not be achieved until his Great grandson was nearly 17 years old in 1948 when the last objective (the right to vote) would finally be achieved. His story is an American story, rarely told about the Native Americans from the Indian Territory now known as Oklahoma. A comprehensive work that brings the history to life with family pictures and the actual events that shaped America as we know it today.

*The Presidential Character* James Barber,2019-10-17 A book entitled *The Presidential Character* is more timely and necessary than ever. This new issue of James David Barber's classic work appears almost 50 years after its first publication and yet reads like a roadmap to the 2020 presidential election. Its subtitle, "Predicting Performance in the White House," is an apt reflection on the election of 2016. With a revised and updated foreword by George C. Edwards III that brings in the Trump Administration, this book argues that patterns in a person's character, world view, and political style can allow us to anticipate his or her performance as president. How would Barber have categorized Donald J. Trump, who appears to defy

every presidential type and norm? This question suggests one of the most provocative and appealing reasons for students, scholars, and voters to re-read *The Presidential Character* at this particular juncture. What should we look for in a president? This text offers explanations and predictions of the performance of past presidents and presidential candidates with many cautionary tales looking forward. Features Presents a revised and updated foreword by presidential scholar George C. Edwards III, Distinguished Professor of Political Science at Texas A&M University, that includes the advent of the Trump Administration and highlights the book's classic and enduring contributions. Includes predictions of presidential performance from Nixon to Bush. Analyzes the media's role in providing information about the political candidates and in shaping public opinion of them. Draws on historical, biographical, and psychological research to help voters make judicious choices in determining the country's highest leaders. Encourages citizens to be actively involved scholars, critics, and participants in their government.

**The Truth in Small Doses** Clifton Leaf, 2014-08-05 A decade ago Leaf, a cancer survivor himself, began to investigate why we had made such limited progress fighting this terrifying disease. The result is a gripping narrative that reveals why the public's immense investment in research has been badly misspent, why scientists seldom collaborate and share their data, why new drugs are so expensive yet routinely fail, and why our best hope for progress-- brilliant young scientists-- are now abandoning the search for a cure.

The Presidential Character James David Barber, 2017-10-03 Dr. James David Barber's well-known, provocative examination of who has the potential to be voted into the highest office in the land - and why - is being reissued as the newest addition to the Longman Classics in Political Science series. Arguing that patterns in a person's character, world view, and style can allow us to anticipate their performance as president, *The Presidential Character* offers explanations and predictions of the performance of presidents and presidential candidates. Drawing on historical, biographical, and psychological research, Dr. Barber hoped to help voters make judicious choices in determining the country's highest leaders. Revisiting this classic work in today's important presidential election season begs a reconsideration of Barber's probing and enduring query, What should we look for in a president?

**The Candlemass Road** George MacDonald Fraser, 2011-02-10 George MacDonald Fraser wrote *The Candlemass Road* after completing his research and writing *The Steel Bonnets*, his nonfiction account of the Anglo-Scottish border Reivers. Young Lady Margaret Dacre was brought up in the genteel fashion at the court of Queen Elizabeth I. When her father is murdered, she inherits his lands in the English West March and is plunged into a world where violence and raiding are

commonplace. Fraser's characters are, as always, richly developed through vivid descriptions and witty dialogues. His novel is true to the spirit of the Anglo-Scottish frontier feud.

**Ireland's War of Independence 1919-21** Lorcan Collins,2019-05-27 An accessible overview of Ireland's War of Independence, 1919-21. From the first shooting of RIC constables in Soloheadbeg, Co Tipperary, on 21 January 1919 to the truce in July 1921, the IRA carried out a huge range of attacks on all levels of British rule in Ireland. There are stories of humanity, such as the British soldiers who helped three IRA men escape from prison or the members of the British Army who mutinied in India after hearing about the reprisals being carried out by the Black and Tans in Ireland. The hundreds of thousands of people who celebrated the Centenary of the 1916 Rising with pride and joy are the same people who will appreciate the story of the Irish Republicans who battled against all odds in the next phase of the fight for Ireland between 1919 and 1921.

**The Ditches of Nevada City** Dom Lindars,2023-04-07 This book tells the history of Nevada City, California, through the eyes of the men that built it. For its first 100 years, everything in Nevada City revolved around gold. But this is not another book about finding gold. To get gold, you needed water — to pan for it, to wash it in a sluice, to blast away a hillside with an immense water cannon, or to turn the water wheel of a quartz-ore stamp mill. This book instead asks: How did they get the water? It reveals the engineering marvels that brought water to Nevada City's dry hills from tens of miles away. But what if all the water in every ravine, creek and valley around Nevada City was controlled by just three men? Well, for three decades, every miner, farmer or business could only buy water from the powerful South Yuba Canal Company. What would happen if you got into an argument with them? Or couldn't afford to pay their water bill? Or even dared to compete with them? The book traces the ingenuity and hard work of the town's miners and ditch builders, highlighting in detail the history and origins of various local neighborhoods, including Nevada City itself, Hirschman's Pond, Sugar Loaf Mountain, Deer Creek, Scotts Flat, Manzanita Diggings, Gold Flat and various mining camps along Washington Ridge. This vivid portrayal follows the area's evolution from the chaos of thousands of miners scratching out a living in clusters of muddy tents to a genteel town with hotels, stores, banks, theaters and libraries. What began as a search to uncover a sprawling network of old ditches,

turned into a collection of never-before-told stories of the gold miners, the ruthless and greedy ditch company, and the rivals that it crushed. The domineering ditch company later enabled the next generation of monopoly to provide electrical power. The story of PG&E also started in Nevada City. This, in turn, led to the now more forward-looking stewardship of the Nevada Irrigation District. The unique format of this book blends beautiful archival images with more than 35 in-depth biographies of key figures in Nevada City. This 884 page hardcover book includes over 600 photos and illustrations, including 200 historic photographs and 75 hand-crafted maps based on modern lidar technology that reveal the locations of the old mining ditches, flumes, mines and tunnels.
