Adrien Jean Quentin Beuchot

Lévi-Strauss Emmanuelle Loyer, 2019-01-18 Academic, writer, figure of melancholy, aesthete – Claude Lévi-Strauss (1908–2009) not only transformed his academic discipline, he also profoundly changed the way that we view ourselves and the world around us. In this award-winning biography, historian Emmanuelle Loyer recounts Lévi-Strauss's childhood in an assimilated Jewish household, his promising student years as well as his first forays into political and intellectual movements. As a young professor, Lévi-Strauss left Paris in 1935 for São Paulo to teach sociology. His rugged expeditions into the Brazilian hinterland, where he discovered the Amerindian Other, made him into an anthropologist. The racial laws of the Vichy regime would force him to leave France yet again, this time for the USA in 1941, where he became Professor Claude L. Strauss – to avoid confusion with the jeans manufacturer. Lévi-Strauss's return to France, after the war, ushered in the period during which he produced his greatest works: several decades of intense labour in which he reinvented anthropology, establishing it as a discipline that offered a new view on the world. In 1955, *Tristes Tropiques* offered indisputable proof of this the world over. During those years, Lévi-Strauss became something of a French national monument, as well as a celebrity intellectual of global renown. But he always claimed his perspective was a 'view from afar', enabling him to deliver incisive and subversive diagnoses of our waning modernity. Loyer's outstanding biography tells the story of a true intellectual adventurer whose unforgettable voice invites us to rethink questions of the human and the meaning of progress. She portrays Lévi-Strauss less as a modern than as our own great and disquieted contemporary.

In the Museum of Man Alice L. Conklin, 2013-10-04 *In the Museum of Man* offers new insight into the thorny relationship between science, society, and empire at the high-water mark of French imperialism and European racism. Alice L. Conklin takes us into the formative years of French anthropology and social theory between 1850 and 1900; then deep into the practice of anthropology, under the name of ethnology, both in Paris and in the empire before and especially after World War I; and finally, into the fate of the discipline and its practitioners under the German Occupation and its immediate aftermath. Conklin addresses the influence exerted by academic networks, museum collections, and imperial connections in defining human diversity socioculturally rather than biologically, especially in the wake of resurgent anti-Semitism at the time of the Dreyfus Affair and in the 1930s and 1940s. Students of the progressive social scientist Marcel Mauss were exposed to the ravages of imperialism in the French colonies where they did fieldwork; as a result, they began to challenge both colonialism

and the scientific racism that provided its intellectual justification. Indeed, a number of them were killed in the Resistance, fighting for the humanist values they had learned from their teachers and in the field. A riveting story of a close-knit community of scholars who came to see all societies as equally complex, In the Museum of Man serves as a reminder that if scientific expertise once authorized racism, anthropologists also learned to rethink their paradigms and mobilize against racial prejudice—a lesson well worth remembering today.

Correspondence Georges Bataille,Michel Leiris,2008 In the autumn of 1924, just before André Breton published the *Manifeste du surréalisme*, two young men met in Paris for the first time. Georges Bataille, 27, starting work at the Bibliothèque Nationale Michel Leiris, 23, beginning his studies in ethnology. Within a few months they were both members of the Surrealist group, although their adherence to Surrealism (unlike their affinities with it) would not last long: in 1930 they were among the signatories of 'Un cadavre,' the famous tract against Breton, the 'Machiavelli of Montmartre,' as Leiris put it. But their friendship would endure for more than 30 years, and their correspondence, assembled here for the first time in English, would continue until the death of Bataille in 1962. Including a number of short essays by each of them on aspects of the other's work, and excerpts on Bataille from Leiris' diaries, this collection of their correspondence throws new light on two of Surrealism's most radical dissidents.
