The Palgrave Handbook of Arctic Policy and Politics Ken S. Coates, Carin Holroyd, 2019-11-14 The Arctic has, for some forty years, been among the most innovative policy environments in the world. The region has developed impressive systems for intra-regional cooperation, responded to the challenges of the rapid environmental change, empowered and engaged with Indigenous peoples, and dealt with the multiple challenges of natural resource development. The Palgrave Handbook on Arctic Policy and Politics has drawn on scholars from many countries and academic disciplines to focus on the central theme of Arctic policy innovation. The portrait that emerges from these chapters is of a complex, fluid policy environment, shaped by internal, national and global dynamics and by a wide range of political, legal, economic, and social transitions. The Arctic is a complex place from a political perspective and is on the verge of becoming even more so. Effective, proactive and forward-looking policy innovation will be required if the Far North is to be able to address its challenges and capitalize on its opportunities.

Powerless to Powerful Charles Salina, Suzann Girtz, Joanie Eppinga, 2015-12-08 The pressure is on. Throughout the country, educators and administrators are working hard to make sure students pass standardized tests and graduate. At the same time, teachers are overwhelmed by ever-increasing demands. Efforts at reforming schools often replicate the same approaches and net the same discouraging results. Staff at many schools feel defensive and powerless as a result of being unable to meet standards they didn't set and don't know how to achieve. This book describes a humanistic approach to implementing programs and systems that bring academic press, social support, and relational trust together in unique ways. Based on the understanding that old beliefs are changed by supporting new behaviors, the approach includes acquiring and using data in innovative and intentional ways. Properly conducted, the approach results in high morale, a sense of inclusiveness and success, increased efficacy, and improved metrics in all areas of education. The book includes the research and theory behind the approach, action steps for leaders, and lessons learned in the process—useful elements of success for

any school.

Organizational Behavior for School Leadership Leslie S. Kaplan, William A. Owings, 2017-05-12 *Organizational Behavior for School Leadership* provides a theoretical and practical framework to help emerging leaders build the mental models they need to be effective. Presenting traditional, modern, and contemporary perspectives, each chapter offers opportunities for readers to reflect on the ideas and apply their leadership perspective and skills to their own work settings. In this way, this important book helps graduate students in educational leadership understand organizational situations and circumstances, an essential step in making appropriate decisions about people, school operations, and the community that generate improved student and teacher outcomes. Special features include: Guiding questions—chapter openers to initiate student thinking. Case studies and companion rubrics—engage students in applying content to real-life school scenarios with guiding rubrics to help think through answers. Reflections and relevance—interactive learning activities, simulations, and graphic assignments deepen readers' understanding. PSEL Standards—each chapter aligns with the 2015 Professional Standards for Educational Leaders. Companion website—includes case studies and rubrics, supplementary materials, additional readings, and PowerPoint slides for instructors.

Educating Indigenous Children in Australian Juvenile Justice Systems Bronwyn Ewing, Grace Sarra, 2023-02-06 This book addresses key issues in the context of the national policy of educating children accused of crimes in Juvenile Courts in Australia. For several decades, National and State Governments in Australia have struggled to define education, constantly seeking to improve the way society applies the concept. This book presents an accurate portrayal of consequences of the education policy of trying to educate troubled children and young people in trouble with the law. It describes the work of juvenile detention centre mathematics teachers and their teaching contexts. It portrays teachers as learners, who ventured with researchers with a theoretical perspective. This book focuses on culturally responsive pedagogies that seek to understand the ways Indigenous children and young people in juvenile detention make sense of their mathematical learning, which, until the time of detention, has been plagued by failure. It examines how the underperformance of Aboriginal and Torres Strait Islander students, and students from low socioeconomic backgrounds are strong determinants of their overrepresentation in the juvenile justice system in Australia. This book presents the argument that if the students' literacy and numeracy levels can be improved, there is opportunity to build better futures away from involvement in the juvenile justice system and towards productive employment to improve life chances.

Natural Resources in Afghanistan John F. Shroder, 2014-06-04 *Natural Resources in Afghanistan: Geographic and Geologic Perspectives on Centuries of Conflict* details Afghanistan's physical geography — namely climate, soils, vegetation, water, hazards, and basic geologic background and terrain landforms — together with details of its rich natural resources, ethnic problems, and relevant past histories. The book couples these details with the challenges of environmental

degradation and new environmental management and protection, all of which are considered finally in both pessimistic and optimistic modes. The reader comes away with a nuanced understanding of the issues that are likely to have great affect for this pivotal region of the world for decades to come. With an estimated \$1-3 trillion dollars of ore in the ground, and multiple cross-reinforcing cancellations of big Asian power machinations (China, India, Iran, Pakistan), Afghanistan has an opportunity to gain more economic independence. At the same time, however, historic forces of negativity also pull it back toward the chaos and uncertainty that has defined the country and constrained its economic progress for decades. - Authored by the world's foremost expert on the geology and geomorphology of Afghanistan and its lucrative natural resources - Aids in the understanding of the physical environment, natural hazards, climate-change situations, and natural resources in one of the most geographically diverse and dangerous terrains in the world - Provides new concepts of resource-corridor development in a country with no indigenous expertise of its resources

Transboundary Water Resources in Afghanistan John F. Shroder, Sher Jan Ahmadzai, 2016-06-13 Transboundary Water from Afghanistan: Climate Change, and Land-Use Implications brings together diverse factual material on the physical geography and political, cultural, and economic implications of Southwest Asian transboundary water resources. It is the outgrowth of long-term deep knowledge and experience gained by the authors, as well as the material developed from a series of new workshops funded by the Lounsbery Foundation and other granting agencies. Afghanistan and Pakistan have high altitude mountains providing vital water supplies that are highly contentious necessities much threatened by climate change, human land-use variation, and political manipulation, which can be managed in new ways that are in need of comprehensive discussions and negotiations between all the riparian nations of the Indus watershed (Afghanistan, China, India, and Pakistan). This book provides a description of the basic topographic configuration of the Kabul River tributary to the Indus river, together with all its tributaries that flow back and forth across the border between Afghanistan and Pakistan, and the basic elements that are involved with the hydrological cycle and its derivatives in the high mountains of the Hindu Kush and Himalaya. - Synthesizes information on the physical geography and political, cultural, and economic implications of Southwest Asian transboundary water resources - Offers a basic topographic description of the Indus River watershed - Provides local water management information not easily available for remote and contentious border areas - Delivers access to the newest thinking from chief personnel on both sides of the contentious border - Features material developed from a series of new workshops funded by the Lounsbery Foundation and other granting agencies

Climate Change 2022 - Impacts, Adaptation and Vulnerability Intergovernmental Panel on Climate Change (IPCC), 2023-06-22 The Working Group II contribution to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) provides a comprehensive assessment of the scientific literature relevant to climate change impacts, adaptation and vulnerability. The report recognizes the interactions of climate, ecosystems and biodiversity, and human

societies, and integrates across the natural, ecological, social and economic sciences. It emphasizes how efforts in adaptation and in reducing greenhouse gas emissions can come together in a process called climate resilient development, which enables a liveable future for biodiversity and humankind. The IPCC is the leading body for assessing climate change science. IPCC reports are produced in comprehensive, objective and transparent ways, ensuring they reflect the full range of views in the scientific literature. Novel elements include focused topical assessments, and an atlas presenting observed climate change impacts and future risks from global to regional scales. Available as Open Access on Cambridge Core.

Stories Untold Laura Mays, 2021-09-01 *Stories Untold* is a personal account of a family's history from their earliest days in the United States to the 2020s. It demonstrates the many connections between people, especially in the Old American South, and illustrates the stories passed down among generations. Through the lens of a young woman in her 20s, edited by her grandfather, *Stories Untold* examines the journey of an American family through time.

Experimental Systems Michael Schwab, 2013 In the sciences, the experimental approach has proved its worth in generating what subsequently requires understanding. Can the emergent field of artistic research be inspired by recent thinking about the history and workings of science?

The Ocean and Cryosphere in a Changing Climate Intergovernmental Panel on Climate Change (IPCC), 2022-05-19 The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.

Putting Water Security to Work Chad Staddon, Christopher A. Scott, 2021-09-09 Over the last decade, water security has replaced sustainability as the key optic for thinking about how we manage water. This reframing has offered benefits (including clear recognition of the link between humans, the environment and the right to water) and also posed challenges (the tendency in some quarters to interpret "security" solely in terms of geopolitical or economic "securitisation"). In this collection, the authors offer a radical repositioning of these debates updated to reflect the concerns of our post-pandemic world. The chapters in this volume examine several different themes including how water security articulates with locality

and culture, how it operates across spatial scales and its moral/ethical resonances. The chapters in this book were originally published in the journals *Water International* and *International Journal of Water Resources Development*.

Directing Screen Performances Robert Klenner, 2019-01-24 The core goal of *Directing Screen Performances* is to teach aspiring directors how to prepare and work with actors. Through a practical exploration of the major approaches to contemporary screen acting, you will learn how to formulate your own effective modes of communication to craft compelling performances. Directing performances for the screen starts well before the actor is cast and finishes well after the last slate is shot. In this book you will learn how to analyze a script, brief the casting director, rehearse the actors, decide on the visual treatment that enriches their performances, direct effectively on set and finesse the character in the edit. The director's process is clearly defined and augmented with illustrations, photographs and graphics, and each chapter concludes with practical exercises to consolidate the new knowledge.

Mastering the Balance of the Principalship Robert Ricken, 2006-09-01 This unique resource helps new and veteran principals achieve a balance between serving as caring and collaborative leaders and maintaining unilateral authority.

Jews and Jazz Charles B Hersch, 2016-10-14 *Jews and Jazz: Improvising Ethnicity* explores the meaning of Jewish involvement in the world of American jazz. It focuses on the ways prominent jazz musicians like Stan Getz, Benny Goodman, Artie Shaw, Lee Konitz, Dave Liebman, Michael Brecker, and Red Rodney have engaged with jazz in order to explore and construct ethnic identities. The author looks at Jewish identity through jazz in the context of the surrounding American culture, believing that American Jews have used jazz to construct three kinds of identities: to become more American, to emphasize their minority outsider status, and to become more Jewish. From the beginning, Jewish musicians have used jazz for all three of these purposes, but the emphasis has shifted over time. In the 1920s and 1930s, when Jews were seen as foreign, Jews used jazz to make a more inclusive America, for themselves and for blacks, establishing their American identity. Beginning in the 1940s, as Jews became more accepted into the mainstream, they used jazz to re-minoritize and avoid over-assimilation through identification with African Americans. Finally, starting in the 1960s as ethnic assertion became more predominant in America, Jews have used jazz to explore and advance their identities as Jews in a multicultural society.

The Teaching of Instrumental Music Richard J. Colwell, Michael P. Hewitt, 2017-10-12 The Teaching of Instrumental Music, Fifth Edition introduces music education majors to basic instrumental pedagogy for the instruments and ensembles commonly found in the elementary and secondary curricula. It focuses on the core competencies required for teacher certification in instrumental music, with the pervasive philosophy to assist teachers as they develop an instrumental music program based on understanding and respecting all types of music. Parts I and II focus on essential issues for a successful instrumental program, presenting first the history and foundations, followed by effective strategies in administrative tasks and classroom teaching. Parts III, IV, and V are devoted to the skills and techniques of woodwind, brass and percussion, and string instruments. In all, The Teaching of Instrumental Music is the complete reference for the beginning instrumental teacher, commonly retained in a student's professional library for its unique and comprehensive coverage. NEW TO THIS EDITION: Revision and updating of curriculum developments, such as coordinating State Department of Education student learning objectives with the recent Every Student Succeeds Act (ESSA) New discussion of the NAfME National Standards as they relate to the teaching of instrumental music Revamping of rehearsing instrumental ensembles chapters, including new or expanded sections on programming, choosing quality music, and applying successful rehearsal techniques Updates on references, plus new discussion questions, and websites and internet links A chapter devoted to classroom guitar Updates on the use of technology for teaching and learning music More on healthy performance practice, marching band, and jazz band Online materials located in the eResources section on the Routledge website.

Adventure Tourism David Huddart, Tim Stott, 2019-10-25 This textbook presents a comprehensive overview of the environmental impacts of various types of adventure tourism and how these can be best managed. This volume follows on from the authors previous textbook - 'Outdoor Recreation: Environmental Impacts and Management' and continues the aim of developing a deeper understanding of how tourist numbers impact the environment and to provide practical solutions to these problems. Combining their own first-hand experience and research with extensive literature review the authors' present several popular adventure tourism destinations from across the globe, including the Arctic, the Himalayas, Africa, Australia and Scotland as case studies. Chapters cover the particular challenges faced by each region: including impacts on animals and birds; the spread of invasive plant species and diseases; trail impacts on vegetation; impacts on geological, historical and archaeological sites and pollution and waste issues. A discussion and evaluation of the possible management actions for minimising these impacts and how outdoor recreation tourists can be regulated concludes each chapter. This

practical and engaging textbook will be invaluable to students and scholars of adventure tourism and outdoor recreation as well as practitioners and managers working in the field.
