Fernando Arellano

Las sociedades aborígenes Luis Guillermo Lumbreras Salcedo,1999

Los primeros habitantes de Norteamérica (North America's First People) Janey Levy,2016-12-15 Who were the earliest Americans? When, how, and from where did they enter and spread across the continent? And what is their relationship to modern Native Americans? Anthropologists develop theories to answer these questions based on the evidence they discover. Their theories and the discoveries that prove and disprove them are highlighted in this fascinating volume, full of awe-inspiring facts and incredible breakthroughs. Readers will feel like anthropologists and archaeologists themselves as they read about bones and artifacts, and what they reveal about the ancient cultures that roamed North America, some more than 13,000 years ago!

Origen de los indios de América & Origen y civilizaciones de los indígenas del Perú Carlos Prince,2023-11-03 El libro 'Origen de los indios de América & Origen y civilizaciones de los indígenas del Perú' de Carlos Prince es un estudio exhaustivo que aborda las raíces históricas y culturales de los pueblos indígenas de América, con un énfasis particular en el Perú. A través de un estilo académico y riguroso, Prince conecta datos etnográficos, arqueológicos y relatos coloniales, ofreciendo una perspectiva multidimensional sobre la formación de las civilizaciones precolombinas. La obra se sitúa en un contexto literario que cuestiona las narrativas hegemónicas sobre la historia indígena, proponiendo un análisis crítico que busca rescatar la voz de las culturas originarias y su relevancia en la construcción de la identidad americana contemporánea. Carlos Prince, reconocido por su dedicación al estudio de la historia indígena, ha trabajado extensamente en la investigación

de las civilizaciones precolombinas, lo que le ha permitido acumular un vasto conocimiento sobre sus diversas manifestaciones culturales. Su obra está profundamente impregnada de un compromiso con la verdad histórica y con la búsqueda de justicia social, hechos que sin duda influyen en su capacidad para abordar temas complejos con sensibilidad y profundidad. Recomiendo encarecidamente 'Origen de los indios de América & Origen y civilizaciones de los indígenas del Perú' a cualquier lector interesado en la historia de América. Esta obra es fundamental no solo para académicos, sino para cualquier persona que desee comprender la riqueza cultural y la compleja historia de los pueblos indígenas, así como su impacto en la identidad actual y su legado en la sociedad contemporánea.

Contributors Immanuel Wallerstein, Enrique Dussel, Walter Mignolo, Agustin Lao, Lewis Gordon, James V. Fenelon, Roberto Hernandez, James Cohen, Santiago Slabosky, Susanne Jonas, and Thomas Reifer. By the mid-twenty-first century, white Euro-Americans will be a demographic minority in the United States and Latino/as will be the largest minority (25 percent). These changes bring about important challenges at the heart of the contemporary debates about political transformations in the United States and around the world. Latino/as are multiracial (Afro-latinos, Indo-latinos, Asian-latinos, and Euro-latinos), multi-ethnic, multireligious (Jewish, Catholic, Protestant, Muslim, indigenous, and African spiritualities), and of varied legal status (immigrants, citizens, and illegal migrants). This collection addresses for the first time the potential of these diverse Latino/a spiritualities, origins, and statuses against the landscape of decolonization of the U.S. economic and cultural empire in the twenty-first century. Some authors explore the impact of Indo-latino and Afro-latino in the United States and others discuss the conflicting interpretations and political conflicts arising from the Latinization of the United States.

La ilustración y el hombre americano Marisa González Montero de Espinosa,1992

Historia de América Juan Bosco Amores,2006 Desde 1492, el continente americano -las Indias, el Nuevo Mundo o Cuarta Pars, como se le llamó durante más de un siglo- quedó unido al Occidente europeo, como consecuencia del impulso expansivo que, de un siglo atrás, experimentaban las monarquías ibéricas. La historia del continente quedó desde entonces estrechamente ligada a la de Europa, y allí se trasladaron las dos formas de la cultura cristiano-occidental en que quedó dividido el viejo continente tras la reforma protestante: la de base mediterránea -latina, católica y barroca-, y la anglosajona protestante-calvinista. La primera asimiló las altas culturas precolombinas de la América nuclear a través de un profundo proceso de mestizaje étnico y cultural, dando lugar a lo que recientemente se ha reconocido como una de las grandes civilizaciones mundiales, la de América latina; la segunda, con base principalmente en Norteamérica, ha llegado a liderar el mundo occidental en la historia reciente. El presente Manual ha sido redactado pensando principalmente en los alumnos de la materia de Historia de América de la Licenciatura o Grado de Historia de las Universidades españolas, que deben conocer, en una apretada síntesis, toda la evolución de la historia del continente desde su poblamiento hasta los procesos recientes. Por razones obvias, nos ha parecido conveniente hacer hincapié en la América colonial hispana, pero también, de acuerdo con las últimas tendencias docentes e historiográficas, se dedica un amplio espacio a la etapa nacional o independiente de América latina y, para obtener una visión global o incluso comparativa, se ofrece una breve síntesis de la historia de la América anglosajona.
