Popstrology Ian van Tuyl,2008-12-01 Which force was more likely to have penetrated your essence and shaped your destiny if you were born in February of 1964: the orbital shufflings of Mars and Jupiter, or the explosive rise of the stars called the Beatles? By linking your personality and potential to the star who ruled the pop universe at the moment of your birth, Popstrology offers an entirely new approach to illuminating your spirit and your soul. Could the roots of your chronic restlessness lie in the fact that you are a Commodore born in the Year of Debby Boone? Could your crippling sexual inhibition result from being a Pat Boone born in the Year of Elvis Presley? Yes, they could. Could Britney Spears have been born under the influence of anything other than Olivia Newton-John's Physical? No, she couldn't. Fresh, funny and remarkably persuasive, this groundbreaking book reveals the powers hidden in a galaxy of stars we all can name, and in so doing gives us the right sign for modern times. Ian Van Tuyl is a Double Monkee and the author of the original Princeton Review Guide to the Best U.S. Law Schools.

The Soundies Mark Cantor, 2023-04-19 The 1940s saw a brief audacious experiment in mass entertainment: a jukebox with a screen. Patrons could insert a dime, then listen to and watch such popular entertainers as Nat King Cole, Gene Krupa, Cab Calloway or Les Paul. A number of companies offered these tuneful delights, but the most successful was the Mills Novelty Company and its three-minute musical shorts called Soundies. This book is a complete filmography of 1,880 Soundies: the musicians heard and seen on screen, recording and filming dates, arrangers, soloists, dancers, entertainment trade reviews and more. Additional filmographies cover more than 80 subjects produced by other companies. There are 125 photos taken on film sets, along with advertising images and production documents. More than 75 interviews narrate the firsthand experiences and recollections of Soundies directors and participants. Forty years before MTV, the Soundies were there for those who loved the popular music of the 1940s. This was truly music for the eyes.

Put on a Happy Face Charles Strouse, 2008 Strouse composed some of the most successful shows in Broadway history (Annie, Bye Bye Birdie, Applause, and Golden Boy); wrote the film score for Bonnie and Clyde as well as the theme song for All in the Family; has been sampled by one of today's biggest rap stars (Jay-Z, in the Grammy-winning Hard Knock Life); and his songs have been sung by musical greats from Frank Sinatra to Ray Charles to Barbra Streisand. Timed to coincide with public celebrations of his 80th birthday, this memoir grants an insider's glimpse of Broadway, Hollywood, and beyond. Strouse relates the behind-the-curtain stories of his remarkable achievements, and tells about the people he's worked with along the way, including Butterfly McQueen, Gower Champion, Sammy Davis Jr., Lauren Bacall, Mel Brooks, Clifford Odets, Warren Beatty, Hal Prince and Carol Burnett.--From publisher description.

The Book of Hit Singles Dave McAleer, 2001-08 (Book). Based on the official Top 20 charts from Billboard in the US and NME/Music Week in the UK, this entertaining book shows at a glance the monthly international status of the hits. The fully updated and revised fourth edition lists the charts since they began in January 1954 all the way through December 2000. Each song is listed with artist name and nationality, current and previous month's chart position, record label, weeks on the

chart, and simultaneous position on the other side of the pond. Special symbols indicate million-sellers, plus artists' first and most recent hits. Conductors and Composers of Popular Orchestral Music Naomi Musiker, Reuben Musiker, 2014-02-25 World-wide in scope and focusing on the second half of the 20th century, this work provides biographies and discographies of some 500 composers and conductors of light and popular orchestral music, including film, show, theatre and mood music. The book is arranged in two sequences: 1) Biographies and select discographies, both arranged alphabetically, of the well-known and better-known conductors and composers. These entries also include a list of suggested reading for those wishing to further their studies; and 2) Select discographies of conductors about whom little or no biographical information is available. The bibliography at the end of the book covers discographical sources, popular music and film music. This is the first time that the lives and recordings of such artists as Kostelanetz, Faith, and Gould as well as the orchestral recordings of such great popular composers as Gershwin, Kern, Porter, Rodgers, Berlin and Coward have been documented and presented in an encyclopedic form.

Fragmentation Gregg Cameron, 2012-01-09 In the closing months of World War II top secret experiments in stealth were conducted at the Philadelphia Naval Yard using Einsteins Unified Field Theory. When a research vessel mysteriously disappeared from its dock with more than 40 souls on board the Navy surreptitiously declared the ship lost at sea with all hands missing. As the Second World War drew to a close, work on these experiments was discontinued and the government quietly let them fall into the dust bin of history. Some 65 years later, metallurgist David Albright, makes a startling discovery.

A crucial piece of evidence in the ship's disappearance leads him to a new love and a conspiracy at the highest levels of our government. Spurred on by co-worker and bio chemist Colleen Gilmore, their race toward the elusive truth about the doomed ship and escape from the relentless pursuit by government agents is a love story filled with heart-pounding drama and shocking twists.

Reaching Rosie Kara J. Morris,2021-01-28 Picture the scene: five women, trembling with fear and excitement at the prospect of stripping naked in front of an expectant crowd... When Kara J. Morris discovered that her daughter, Rosie, had autism she vowed to do everything in her power to help her reach her potential. Their hope lay with special therapy in America, but at £17,000, this didn't come cheap. Kara's only option was to try to raise the funds - and fast. When four of her friends came up with the idea of forming a burlesque striptease ensemble to draw attention to her cause, Kara jumped in feet first. Their new group, The Full Monty Girls faced the challenge of a lifetime. Never could they have envisaged that their friendship, determination and the support they received from their local community would go on to spread their message of autism awareness to millions of people around the world.
