

A History Of Florida Through Black Eyes

John George Wood

A History of Florida Marvin Dunn, 2016-05-24 I know Florida. I was born in Florida during the reign of Jim Crow and have lived to see black astronauts blasted into the heavens from Cape Canaveral. For three quarters of a century I have lived mostly in Florida. I have seen her flowers and her warts. This book is about both. People of African descent have been in Florida from the arrival of Ponce de Leon in 1513, yet our presence in the state is virtually hidden. A casual glance at most Florida history books depict African Americans primarily as laborers who are shown as backdrops to white history. The history of blacks in Florida has been deliberately distorted, omitted and marginalized. We have been denied our heroes and heroines. Our stories have mainly been left untold. This book lifts the veil from some of these stories and places African Americans in the very marrow of Florida history.

The Racial Politics of Division Monika Gosin, 2019-06-15 The Racial Politics of Division deconstructs antagonistic discourses that circulated in local Miami media between African Americans, white Cubans, and black Cubans during the 1980 Mariel Boatlift and the 1994 Balsero Crisis. Monika Gosin challenges exclusionary arguments pitting these groups against one another and depicts instead the nuanced ways in which identities have been constructed, negotiated, rejected, and reclaimed in the context of Miami's historical multiethnic tensions. Focusing on ideas of legitimacy, Gosin argues that dominant race-making ideologies of the white establishment regarding worthy citizenship and national belonging shape inter-minority conflict as groups negotiate their precarious positioning within the nation. Rejecting oversimplified and divisive racial politics, *The Racial Politics of Division* portrays the lived experiences of African Americans, white Cubans, and Afro-Cubans as disrupters in the binary frames of worth-citizenship narratives. Foregrounding the oft-neglected voices of Afro-Cubans, Gosin posits new narratives regarding racial positioning and notions of solidarity in Miami. By looking back to interethnic conflict that foreshadowed current demographic and social trends, she provides us with lessons for current debates surrounding immigration, interethnic relations, and national belonging. Gosin also shows us that despite these new demographic realities, white racial power continues to reproduce itself by requiring complicity of racialized groups in exchange for a tenuous claim on US citizenship.

City of Hope, City of Rage Seth A. Weitz, 2024 In 'City of Hope, City of Rage: Miami, 1968-1994,' Seth A. Weitz examines the transformative period when the young city-founded under Jim Crow in 1896 and searching for an identity after

the upheavals of the 1950s and 60s-began to strive for maturity. Tracing three turbulent decades marked by mass immigration, racially motivated uprisings, economic inequity, rising crime, and social change, 'City of Hope, City of Rage' tells the story of Miami's evolution from a predominantly white southern city and vacation community into what is now a global, predominantly Hispanic metropolis with an international tourist base-one which nevertheless remains one of the most segregated cities in the United States. Drawing on numerous primary sources, including one-on-one interviews with people who lived the history, Weitz assembles a kaleidoscopic portrait of his hometown's coming of age, returning again and again to the question of how Miami is defined, who gets to define it, and, by extension, the parameters of civic identity and belonging in an increasingly cosmopolitan network of communities

A Higher Education Equity Walk in The Struggle for American Identity Lenford Sutton ,2024-02-03 A Higher Education Equity Walk in the Struggle for American Identity offers a compelling case study by Lenford Sutton recounting the author's parallel experience as the first black man to serve as the tempered radical in a historically white learning community. In the Southwest. Drawing parallels with the tragic fate of Ahmad Aubry in an unwelcoming community, Sutton sheds light on the visible and unseen cultural frameworks, racial habits, and value gaps leaders from non-dominant groups navigate when pursuing Diversity, Equity, and Inclusion goals and objects within the university strategic plans of Historically White Institutions. In addition, it captures deep reflection from the experience, reframing problems in the spirit of Design Thinking with particular emphasis on Empathy as the Gateway to problem-solving. Recognizing that Digital transformation, both cultural and demographic shifts, are the drivers of enormous changes that foster fear and increased uncertainty, the text emphasizes the new learnings and recommendations for leaders operating in similar circumstances. It connotes that tempered radicals often reside at the intersection of innovation and the status quo and, in the current cultural and technological disruption of higher education, can serve the institution well if deployed appropriately by university leadership to scale its culture.

Enlightened Literacy Beyond the Reading Wars Dr. Deborah Duncan Owens,2025-05-29 Enlightened Literacy Beyond the Reading Wars: Providing Hope for Democracy, Global Citizenship, and the Human Condition provides an in-depth historical analysis of the reading wars that have dominated the policy discussions and governmental mandates about how reading is taught in public schools across the United States for decades. The resulting fixation on phonics, and criticism of public schools continues to drive headlines in spite of what is considered settled science about the essentiality of phonics in early reading instruction. Deborah Duncan Owens' journey to develop a new paradigm for literacy instruction through enlightened literacy provides insight into the convergence of the economic and governmental forces that have resulted in the stagnation of literacy research and practice and the reductionist view of reading instruction that threatens literacy development in the United States. Enlightened Literacy offers an alternative framework that holds the promise of moving beyond the reading

wars toward a more expansive vision for literacy education. Actualizing enlightened literacy in the classroom environment is examined through four aspects: 1) a panoramic perspective; 2) a humanistic ethos; 3) a spirit of curiosity; and 4) a focus on the pragmatic.

Memory and popular film Paul Grainge, 2018-07-30 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. One of the first books to put memory at the centre of analysis when exploring the relationship between film culture and the past. Provides a sustained, interdisciplinary perspective on memory and film from early cinema to the present, drawing from film studies, American studies and cultural studies. Adopts a resolutely cultural perspective and unlike psychoanalytic or formalist approaches to memory, explores questions of culture, power and identity. Contributes to the growing debate about the status and function of the past in cultural life and discourse, discussing issues of memory in film, and of film as memory. Considers such well known films as *Forrest Gump*, *Pleasantville*, and *Jackie Brown*.

Prosthetic Memory Alison Landsberg, 2004-04-14 Instead of compartmentalizing American experience, the technologies of mass culture make it possible for anyone, regardless of race, ethnicity, or gender to share collective memories—to assimilate as personal experience historical events through which they themselves did not live. That's the provocative argument of this book, which examines the formation and potential of privately felt public memories. Alison Landsberg argues that mass cultural forms such as cinema and television in fact contain the still-unrealized potential for a progressive politics based on empathy for the historical experiences of others. The result is a new form of public cultural memory—prosthetic memory—that awakens the potential in American society for increased social responsibility and political alliances that transcend the essentialism and ethnic particularism of contemporary identity politics.

Black Female Sexualities Trimiko Melancon, Joanne M. Braxton, 2015-01-26 Western culture has long regarded black female sexuality with a strange mix of fascination and condemnation, associating it with everything from desirability, hypersexuality, and liberation to vulgarity, recklessness, and disease. Yet even as their bodies and sexualities have been the subject of countless public discourses, black women's voices have been largely marginalized in these discussions. In this groundbreaking collection, feminist scholars from across the academy come together to correct this omission—illuminating black female sexual desires marked by agency and empowerment, as well as pleasure and pain, to reveal the ways black women regulate their sexual lives. The twelve original essays in *Black Female Sexualities* reveal the diverse ways black women perceive, experience, and represent sexuality. The contributors highlight the range of tactics that black women use to express their sexual desires and identities. Yet they do not shy away from exploring the complex ways in which black women

negotiate the more traumatic aspects of sexuality and grapple with the legacy of negative stereotypes. *Black Female Sexualities* takes not only an interdisciplinary approach—drawing from critical race theory, sociology, and performance studies—but also an intergenerational one, in conversation with the foremothers of black feminist studies. In addition, it explores a diverse archive of representations, covering everything from blues to hip-hop, from *Crash* to *Precious*, from Sister Souljah to Edwidge Danticat. Revealing that black female sexuality is anything but a black-and-white issue, this collection demonstrates how to appreciate a whole spectrum of subjectivities, experiences, and desires.

Black Miami in the Twentieth Century Marvin Dunn, 1997-11-19 The first book devoted to the history of African Americans in south Florida and their pivotal role in the growth and development of Miami, *Black Miami in the Twentieth Century* traces their triumphs, drudgery, horrors, and courage during the first 100 years of the city's history. Firsthand accounts and over 130 photographs, many of them never published before, bring to life the proud heritage of Miami's black community. Beginning with the legendary presence of black pirates on Biscayne Bay, Marvin Dunn sketches the streams of migration by which blacks came to account for nearly half the city's voters at the turn of the century. From the birth of a new neighborhood known as Colored Town, Dunn traces the blossoming of black businesses, churches, civic groups, and fraternal societies that made up the black community. He recounts the heyday of Little Broadway along Second Avenue, with photos and individual recollections that capture the richness and vitality of black Miami's golden age between the wars. A substantial portion of the book is devoted to the Miami civil rights movement, and Dunn traces the evolution of Colored Town to Overtown and the subsequent growth of Liberty City. He profiles voting rights, housing and school desegregation, and civil disturbances like the McDuffie and Lozano incidents, and analyzes the issues and leadership that molded an increasingly diverse community through decades of strife and violence. In concluding chapters, he assesses the current position of the community--its socioeconomic status, education issues, residential patterns, and business development--and considers the effect of recent waves of immigration from Latin America and the Caribbean. Dunn combines exhaustive research in regional media and archives with personal interviews of pioneer citizens and longtime residents in a work that documents as never before the life of one of the most important black communities in the United States.
