**Metal Toxicity in Plants: Perception, Signaling and Remediation** Dharmendra K. Gupta,Luisa M. Sandalio,2011-09-15 Heavy metal accumulation in soil and water from natural sources or anthropogenic activities have produced severe environmental contamination in some parts of the world due to the persistence of metals in the environment by their accumulation throughout the food chain. The purpose of this book is to present the most recent advances in this field, mainly concerning the uptake and translocation of heavy metals in plants, mechanisms of toxicity, perception of metal and regulation of cell response under metal stress. Another key feature of this book is related to the studies on signaling and remediation processes in recent years, which have taken advantage of recent technological advances including omic approaches. In recent years transcriptomic, proteomic and metabolomic studies have become very important tools for analyzing both the dynamics of changes in gene expression and the profiles of protein and metabolites under heavy metal stress. This information is also very useful for plotting the complex signaling and metabolic network induced by heavy metals,

in which hormones and reactive oxygen species (ROS) also play an important role. Understanding the mechanism involved in sequestration and hyperaccumulation is very important to developing new strategies of phytoremediation, which are reviewed in several chapters of this book. The information included yields very stimulating insights into the mechanism involved in the regulation of plant responses to heavy metals, which in turn improve our knowledge of cell regulation under metal stress and the use of plants for phytoremediation.

**Chicas de hierro** Luis Bartolomé Marcos,María del Pilar Díaz García,2017-10-23 Este libro trata de un excepcional caso -si bien no único- de la presencia femenina en la industria siderúrgica durante el Antiguo Régimen. Resume historia de estas factorías, aborda la descripción del proceso productivo en el que estuvieron inmersas, incluyendo la obtención y tratamiento de las materias primas, la fundición en sentido estricto y los productos fabricados. La segunda parte trata de la mano de obra en su conjunto: dimensiones y estructura de la plantilla, modalidades de relación laboral, salarios y prestaciones, régimen de funcionamiento y los asuntos étnicos relativos al grupo de trabajadores descendientes de flamencos. Se finaliza tratando específicamente a las trabajadoras, las fuentes empleadas para su conocimiento, los aspectos cuantitativos de su presencia, las condiciones de los trabajos que desempeñaban y echando una ojeada a la situación de la mujer en otras factorías análogas de la época. Se complementa la obra con fotos, planos, dibujos, tablas, gráficos y anejos descriptivos y documentales.

Handbook of Power Systems II Steffen Rebennack,Panos M. Pardalos,Mario V. F. Pereira,Niko A. Iliadis,2010-08-26 Energy is one of the world's most challenging problems, and power systems are an important aspect of energy related issues. This handbook contains state-of-the-art contributions on power systems modeling and optimization. The book is separated into two volumes with six sections, which cover the most important areas of energy systems. The first volume covers the topics operations planning and expansion planning while the second volume focuses on transmission and distribution modeling, forecasting in energy, energy auctions and markets, as well as risk management. The contributions are authored by recognized specialists in their fields and consist in either state-of-the-art reviews or examinations of state-of-the-art

developments. The articles are not purely theoretical, but instead also discuss specific applications in power systems.

**El pensamiento arquitectónico en España en el siglo XIX a través de las revistas artísticas del reinado isabelino** ÁLVAREZ RODRÍGUEZ, María Victoria, 2016-04-18 Dentro del panorama de la historiografía artística española del siglo XIX, las revistas artísticas que vieron la luz durante el reinado isabelino constituyen una fuente a la que hasta este momento no se había prestado demasiada atención, principalmente porque el carácter divulgativo de muchos de esos títulos los ha hecho parecer a ojos de los especialistas carentes de rigor histórico y por tanto de relevancia en la evolución de la Historia del Arte en nuestro país. Sin embargo, el papel que desempeñaron algunas revistas como Semanario Pintoresco Español, El Laberinto, Museo de las Familias o El Mundo Pintoresco a la hora de dar a conocer al conjunto de la sociedad las nuevas teorías, investigaciones y discursos que se estaban desarrollando por entonces, y que por fin conseguían salir del ámbito estrictamente académico para convertirse en los casos más notables en una cuestión de interés nacional, merece ser tenido muy en cuenta y valorado como lo que realmente es: una herramienta de difusión y concienciación de la sociedad isabelina con respecto a su arquitectura y su patrimonio. No todas las publicaciones poseyeron la misma personalidad divulgativa y enciclopédica, incorporando artículos sobre Bellas Artes junto a otros tan variopintos como los dedicados a la literatura, la historia, la ciencia o las costumbres; también hubo algunas que, sobre todo en la última década del reinado isabelino, abordaron el estudio de la Historia de la Arquitectura desde una óptica más científica y rigurosa, en aras del positivismo que estaba arraigando en el país una vez el momento de máximo desarrollo del Romanticismo tocó a su fin. Es el caso de títulos como El Arte, El Arte en España o La Revista de Bellas Artes. Paralelamente, surgieron otras publicaciones destinadas al colectivo de los artistas y los literatos que se mantuvieron en la estela romántica, aspirando a convertirse, al igual que sus homónimas francesas, en tribunas destinadas a la difusión de los postulados de este movimiento en nuestro país; entre ellas destacan El Artista o No Me Olvides. Considerando las diferentes categorías que existen dentro de la evolución de las revistas artísticas entre 1833 y 1868, y las diversas maneras que había en ellas de abordar la cuestión de la Historia de la Arquitectura, la presente tesis constituye un análisis secuenciado y minucioso de la evolución de los artículos referentes a dicho tema que vieron la luz en esas fechas en El Artista, Semanario Pintoresco Español, No Me Olvides, Observatorio Pintoresco, El Siglo XIX, El Laberinto, El Arpa del Creyente, El Reflejo, Museo de las Familias, El Siglo Pintoresco, El Renacimiento, El Mundo Pintoresco, El Arte en España, El Arte y La Revista de Bellas Artes. Consta de una introducción histórica referente a las coordenadas cronológicas y espaciales en que se enmarca la investigación, esto es, las pertenecientes al reinado de Isabel II. A continuación se incluye un extenso análisis sobre la situación que se encontraba atravesando por entonces la prensa artística isabelina, con referencias a los cambios producidos con respecto a la fernandina, las progresivas libertades de prensa alcanzadas, la evolución que se puede apreciar en los títulos mencionados, la idiosincrasia de cada uno de ellos, el posicionamiento, trayectoria y producción de sus respectivos directores y sus

redactores y el importante papel desempeñado por sus ilustradores y grabadores. Los siete capítulos siguientes se han dedicado a analizar las opiniones expresadas en esas revistas acerca de los sucesivos estilos arquitectónicos: el Antiguo Egipto, la Antigüedad clásica, la Edad Media, el Renacimiento, el Barroco, el Neoclasicismo y las nuevas corrientes presentes en la arquitectura de la propia época isabelina. En esos capítulos se enjuicia lo aparecido en la prensa artística acerca de los presupuestos característicos de cada estilo, las biografías de los arquitectos considerados más notables por entonces y las descripciones de sus principales monumentos, tanto en el extranjero como en España. Finalmente, la tesis consta de unas conclusiones, una extensa bibliografía dividida en numerosos apartados a fin de facilitar su consulta, un apéndice documental en el que aparecen reproducidos íntegramente los artículos más ilustrativos en cada caso y otro apéndice que recoge las abreviaturas relativas a los archivos consultados durante la presente investigación.

*Ex Vetere Novum. Rehabilitar el patrimonio arquitectónico* Eduardo Azofra Agustín,Alexandra M. Gutiérrez Hernández,2018-10-01 La referencia latina empleada para el título de este libro, Ex vetere novum, es decir, "de lo viejo sale lo nuevo", alerta sobre su contenido, mientras que es el subtítulo, Intervenir en el patrimonio arquitectónico, el que despeja cualquier atisbo de duda. De carácter multidisciplinar, a tenor de los autores de los textos, se divide en tres apartados. En el primero, De varia restauratione, se recogen cuatro aportaciones centradas en las teorías y criterios de la restauración arquitectónica y en la reutilización del patrimonio edilicio. El segundo capítulo, La Universidad de Salamanca: restauraciones-intervenciones, organizado en tres bloques: la Ciudad del Saber (donde se aborda el Plan Director de los edificios históricos de la Universidad de Salamanca, la Restauración efectuada en la Fachada Rica de las Escuelas Mayores entre 2011 y 2016 -sin duda, el punto de partida de este libro-, y el estudio del material pétreo del zócalo de los edificios universitarios salmantinos), los Colegios Universitarios (tanto Mayores como Menores), y, por último, los Palacios Señoriales (en concreto, tres edificios históricos que, levantados o remodelados en el siglo XVI por la nobleza salmantina, fueron rehabilitados a finales del XX o ya en el XXI). Por último, en el tercer capítulo, bajo el epígrafe Fundación Santa María La Real del Patrimonio Histórico: un modelo de intervención, se analizan cuatro actuaciones realizadas por la Fundación en el patrimonio de Castilla y León.

*Nuevas orientaciones para una actividad física saludable en centros de fitness* Borja Sañudo Corrales (Coord.), Jerónimo García Fernández (Coord.), 2011-08-15 La salud es, probablemente, una de las temáticas que más preocupan a la sociedad actual. Esta preocupación se debe al aumento de enfermedades crónicas metabólicas, cardiovasculares y del aparato locomotor, derivadas de un estilo de vida cada vez más sedentario. Esta situación requiere una actuación inmediata para fomentar la práctica de actividad física y promover un estilo de vida no solamente activo, sino también saludable. En este sentido, estamos observando como determinados sectores están incrementando su actividad y es posible apreciar como el sector del fitness está cobrando interés al entenderse como una alternativa efectiva para satisfacer las demandas de práctica de actividad física del conjunto de la población. La progresiva adaptación de este sector a las distintas necesidades de los diferentes grupos o estratos sociales ha permitido un gran desarrollo de esta industria. Este libro tiene por objetivo ofrecer un estado de la cuestión actual sobre la práctica de actividad físico deportiva en centros de fitness, especialmente en su orientación hacia el mantenimiento de la salud. En primer lugar, y tras un breve repaso a esta evolución en la práctica cada vez más diversificada, nos centraremos en los centros de fitness y en cómo valorar y prescribir el ejercicio físico a sus usuarios. No cabe duda de que tan solo si el ejercicio es practicado de manera regular y con la intensidad adecuada contribuirá a mejorar la capacidad funcional global del organismo. En este sentido, se presentan las bases para la prescripción de un ejercicio físico saludable abarcando ejercicios cardiorrespiratorios (ciclo-indoor), el análisis de la técnica en los ejercicios de fortalecimiento muscular o las nuevas tendencias en el entrenamiento de la flexibilidad en sala. Finalmente, se abordarán aspectos relacionados con la innovación en centros de fitness. Sin duda estamos ante un sector en constante evolución que presenta avances continuos, nuevas disciplinas en clases colectivas, entrenamiento vibratorio o el propio entrenamiento funcional serán evaluados. Por último, no debemos olvidar que los principales servicios requeridos, y por tanto ofertados, por los centros de fitness están orientados a la estética y a la salud. Los lectores de este libro tendrán información detallada sobre el entrenamiento personal y sobre la nutrición/alimentación en el entorno de los centros fitness. En definitiva, con este libro queremos adelantarnos a la evolución que está sufriendo este sector, con objeto de ofrecer una información detallada que nos permita ser más críticos y, por tanto, acercarnos al sector del fitness desde una perspectiva más saludable.

## **APROXIMACIÓN Y PROPUESTA DE ANÁLISIS DEL PATRIMONIO INDUSTRIAL INMUEBLE ESPAÑOL CLAVER**

GIL Juan ,SEBASTIÁN PÉREZ Miguel Ángel ,2016-12-15 El patrimonio industrial ha conseguido consolidarse en las últimas décadas como una tipología patrimonial. Actualmente, sus bienes son aceptados como elementos contenedores de valor. España se ha sumado a esta tendencia y desde los años ochenta han surgido distintas organizaciones e iniciativas dedicadas al estudio y protección de estos bienes. En este sentido cabe destacar la puesta en marcha, en 2001, del Plan Nacional de Patrimonio Industrial por parte del Instituto del Patrimonio Cultural Español. Se identifican, a pesar de la mejora del contexto, aspectos que requieren ser mejorados para el adecuado estudio de los bienes inmuebles de tipo industrial. En este libro se aborda la primera parte de una metodología global para el estudio integral de estos bienes, desarrollada en el marco de una tesis doctoral, concretamente la relativa a su identificación, selección y clasificación. Al efecto, se elabora un "catálogo propio" con un número de elementos significativamente superior a los considerados en otras iniciativas previas, y con una estructura de criterios común a todos ellos que permite plantear diversos niveles de análisis desde diferentes enfoques. Con todo ello, se intenta avanzar en la contextualización del estado de esta tipología en nuestro país, en sus distintos territorios, así como sentar las bases conceptuales y metodológicas para el desarrollo de proyectos de actuación e intervención sobre bienes patrimoniales industriales.

Networks, Markets & People Francesco Calabò, Livia Madureira, Francesco Carlo Morabito, María José Piñeira Mantiñán, 2024-11-18 This book aims to address the issue of the effects that the contemporary environmental, technological, social and economic global challenges produce on settlement systems, communities, institutions and enterprises. It presents a multi-disciplinary scientific debate on the new frontiers of strategic and spatial planning, decision support tools and ecological design, within the urban-rural areas networks and the metropolitan cities of the Mediterranean basin. The book focuses on five topics: Cultural Heritage as driver of development for territories and tourism destinations; Ecosystems, people-nature cohesion and urban-rural relationships; Decision Support Systems for urban regeneration; Policies and practices of cohesion and social innovation for inclusive cities; Green buildings and sustainable solutions for ecological transition. In addition, the book hosts the papers of a special session intercluster promoted by Italian Society of Architectural Technology (SITdA). The book benefits all researchers, practitioners and policymakers interested in the issue applied to metropolitan cities and marginal areas.

**Burgueses o ciudadanos en la España moderna** Francisco José Aranda Pérez, 2003 Polémico, controvertido, crucial es el asunto de la burguesía en la España del Antiguo Régimen. Crucial porque o bien, específicamente los que estamos embarcados en las lides de la investigación histórica, o bien casi todos los ciudadanos de la civilización occidental, ya sea por profesionales (liberales), por portadores de un determinado ideario, o simplemente como personas de un mediano pasar, nos podemos sentir hijos o herederos de la burguesía, por muy denostada que esté esta expresión. Polémico, controvertido y hasta contradictorio porque, aunque nos unan muchos puntos en común, los especialistas no nos terminamos de poner de

acuerdo sobre qué, cuándo, dónde, por qué o para qué la burguesía. En fin, la burguesía tiene todos los ingredientes para ser, ahora y por siempre, uno de los temas estrella de la historiografía.
