Postcolonial Theory and the Making of Hindu Nationalism Meera Nanda, 2025-06-06 This book tells the story of two strange bedfellows, the Postcolonial Left and the Hindu Right. It argues that the Postcolonial Left's relentless attacks on the "epistemic violence" of Western norms of rationality and modernity are providing the conceptual vocabulary for the Hindu Right's project of "decolonizing the Hindu mind." The postcolonial project of "provincializing Europe" is widely shared by the Hindu Right, and harks back to the Hindu revivalist movements of the nineteenth century. This book argues that postcolonial thought in India bears a strong family resemblance, in context and content, with the "conservative revolution" that brought down the Weimar Republic in Germany before the Nazi takeover. Both an intellectual history of India through the last half-century and a critical engagement with postcolonial theory, this book will be of interest to scholars of South Asia and the humanities and social sciences at large.

Rama's Labyrinth Sandra Wagner-Wright, 2015-10-21 "A weekend's engaging pursuit." Five Stars—David Lloyd Sutton, San Francisco Book Review Educated and inquisitive, Pandita Ramabai was born in 1858 near Gangamul in the Western Ghat mountains of southern India. The daughter of a Sanskrit scholar, she rose to become a respected scholar herself, in a time when women rarely held such positions. But having lost nearly everyone she loved to famine or cholera, Rama spent most of her life in search of a community she could call home. A widow and single mother, she became a social activist and reformer, relentlessly advocating for the education of women and the care of India's many poor, widowed child-brides. Rama's journey takes readers across British India to England and America as this strong, determined woman battles prejudice, tradition and a male-dominated society to find justice for those with no voice or opportunity. The Pandita Ramabai Mukti Mission, which she founded during a severe famine, became home to thousands of outcast children, child widows, orphans, and other destitute women. It is still active today. As one of the world's great, unsung heroines, Pandita Ramabai has been called one of India's "greatest daughters."

Holy Things Nathan McGovern, 2024 A common religious practice in Buddhist Thailand is asking holy things for help in return for an offering. These holy things include local spirits, Hindu gods, and famous Buddha images, which Thai people

worship all in the same way. Some people, and even Thai Buddhists themselves, have argued that this is syncretism--a mixture of religions. Holy Things shows that what appears to be syncretism is actually an illusion. The worship of holy things is not a mixture of different religions, but the category of holy things is a mixture of different ways of talking about religion.

Answers for the Honest Skeptic Ted Even,2022-10-03 It is true that mankind itself has probably always been characterized with the main desire to determine just what spiritual truth really is. For centuries and centuries, highly educated philosophers and religious men alike have always stood toe-to-toe, disagreeing on spiritual truth. Since they cannot all be right, this would strongly indicate that education, religious persuasion, or even intelligence has little to do with our discovery of the real spiritual truth. For if these things were truly critical, then obviously, the spiritual/intellectual giants of history would have agreed on spiritual truth long ago. In this work, author Ted Even endeavors to show that the disagreeing intellectuals/skeptics of the past only serves to reinforce Christ's radical statement about our need to just become like little children in order to discover the spiritual truth and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis. However, while super-intelligence or big degrees may not be necessary, the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed. Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple to understand work which only leaves the real spiritual truth left standing.

Social Construction of the Past George C. Bond, Angela Gilliam, 2020-04-23 First published in 1994. Anthropological and archaeological enquiry are shaped by the historical times in which they are formulated. This collection of essays examines how mainstream scholarship constructs the past - in the case of anthropologists, usually the past of other peoples. By creating another people's cultural history, scholars appropriate it and turn it into a form of domination by one group over another. Mainstream scholarship has often failed to recognize the intellectual and scholarly contribution of subjugated peoples. This volume looks at the way 'postcolonial' scholars are redefining the nature of scholarship, and themselves, in order to develop a more egalitarian discourse. Social Constructions of the Past examines labour, race and gender and its relationship to power and class. It includes essays on a broad range of topics, from the role of intellectuals in restructuring a non-apartheid South Africa, to Haitian working-class women using sexuality to resist domination.

The Guide to Trauma-Informed and Emotionally Mindful Conflict Practice Jeremy A. Rinker, 2024-10-15 Restoring social harmony requires both emotion and the difficult embrace of past felt traumas. Jeremy A. Rinker provides a clarion call for practitioners to bravely explore human emotions and past trauma. He interrogates current conflict intervention practice—moving past interest-based negotiation and needs-based conflict resolution—and provides a guide for more emotionally mindful and trauma-informed conflict intervention work. The Guide to Trauma-Informed and Emotionally Mindful Conflict Practice addresses the underattended aspects of emotions and foregrounds historical harms in the work of resolving social conflict. It critically investigates trauma and human emotions as an underexplored resource in addressing local and entrenched community violence and integrates the theory and practice of trauma-informed approaches using cultural framing, storytelling, resilience, and emotional human connection to chart new ways toward peace. This refocusing of peace work is critical for not only conflict resolution but also for overcoming the ossification of polarized social identity formations.

The Century, 1928

Time, History and Cultural Spaces Jayita Sengupta, 2022-10-07 This book brings together critical essays on time, history and narrativity and the explorations of these concepts in philosophy, music, art and literature. The volume provides a comprehensive introduction to narrative theories as well as philosophical discourses on time, memory and the self. Drawing insights from western and eastern philosophy, it discusses themes such as subjectivity and identity in historical narratives, theorization of time in cinema and other arts and the relationship between the understandings of existence, consciousness and concepts such as Kala, Aion, and yugas. The book also looks at the narrativization of history across cultures by exploring modern fiction from China and India, murals of martyrs in Northern Ireland, music and films set against the canvas of the Second World War and the Holocaust, as well as diasporic cultural histories. This book will be an interesting read for scholars and researchers of comparative literature, history, philosophy of history, cultural studies and post-colonial studies.

India Briefing, 1987 Marshall M. Bouton, 2019-04-02 This annual review of major events, issues, and trends in Indian affairs presents an authoritative and insightful assessment of India in 1986. Interpretive essays illuminate the causes and consequences of a tumultuous year, as leading specialists discuss Indian politics, economy, society, culture, and foreign relations. The contributors examine such important developments as the breakdown of the Punjab accord, the resurgence of militant communalism, Prime Minister Rajiv Gandhi's faltering leadership, the dramatic heightening of Indo-Pakistan

tensions, the growing resistance to economic reforms, and the impact of the video revolution on Indian culture. Filling an important gap in the literature on contemporary Indian affairs, this book will be invaluable for students and scholars of South Asia as well as for journalists, policymakers, businesspeople, and serious travelers who wish to understand current and future developments in India.

Contemporary Indian Writing in English between Global Fiction and Transmodern Historiography Christoph Senft, 2016-01-12 This study offers a comprehensive overview of Indian writing in English in the 21st century. Through ten exemplary analyses in which canonical authors stand next to less well-known and diasporic ones Christoph Senft provides deep insights into India's complex literary world and develops an argumentative framework in which narrative texts are interpreted as transmodern re-readings of history, historicity and memory. Reconciling different postmodern and postcolonial theoretical approaches to the interpretation and construction of literature and history, Senft substitutes traditional, Eurocentric and universalistic views on past and present by decolonial and pluralistic practices. He thus helps to better understand the entanglements of colonial politics and cultural production, not only on the subcontinent.

The Vernacularisation of Democracy Lucia Michelutti, 2020-11-29 The book is an ethnographic exploration of how 'democracy' takes social and cultural roots in India and in the process shapes the nature of popular politics. It centres on a historically marginalised caste who in recent years has become one of the most assertive and politically powerful communities in North India: the Yadavs. *The Vernacularisation of Democracy* is a vivid account of how Indian popular democracy works on the ground. Challenging conventional theories of democratisation the book shows how the political upsurge of 'the lower orders' is situated within a wider process of the vernacularisation of democratic politics, referring to the ways in which values and practices of democracy become embedded in particular cultural and social practices, and in the process become entrenched in the consciousness of ordinary people. During the 1990s, Indian democracy witnessed an upsurge in the political participation of lower castes/communities and the emergence of political leaders from humble social backgrounds who present themselves as promoters of social justice for underprivileged communities. Drawing on a large body of archival and ethnographic material the author shows how the analysis of local idioms of caste, kinship, kingship, popular religion, 'the past' and politics ('the vernacular') inform popular perceptions of the political world and of how the democratic process shapes in turn 'the vernacular'. This line of enquiry provides a novel framework to understand the unique experience of Indian democracy as well as democratic politics and its meaning in other contemporary post-colonial states. Using as a case study the political ethnography of a powerful northern Indian caste (the Yadavs) and combining ethnographic material with colonial and post-colonial history the book examines the unique experience of Indian popular democracy and provides a framework to analyse popular politics in other parts of the world. The book fills
