The Business of Leisure Andrew Grant Wood, 2021 The Business of Leisure critically surveys a wide selection of travel practices, places, and time periods in considering the development of the hospitality industry in Latin America and the Caribbean. Considering tourism from early sojourners to contemporary dark tourism thrill seekers, contributors to The Business of Leisure examine key economic, political, social, and environmental issues. A number of eminent scholars in the field draw on original research focusing on Brazil, Chile, Colombia, Cuba, the Dominican Republic, Ecuador, Guatemala, Mexico, and Peru. In addition to describing key aspects of industry development in a variety of settings, contributors also consider diverse ways in which histories of travel relate to larger political and cultural questions.

Maps of Quality of Life in Argentina Since the 19th Century Juan Pablo Celemin, Guillermo Angel Velázquez, 2022-10-12

The book is presented as an Atlas where the map plays a fundamental role in the study of quality of life, as it shows its progression in Argentina from the 19th to the 21st Century. In the book, it can be observed how the concept has evolved along with the dimensions and variables that better represent its spatial distribution. This is one of the original points of the book: the temporal study of the living conditions of the argentine population, empirically and spatially, emphasizing their territorial representation. Although the book maintains the same socioeconomic dimensions (education, health and housing), the tour through the different chapters offers a historical window that allows the reader to know what the forms of information collection were like in different historical moments. This book is written for geographers and members of the scientific community interested in the study of the well-being of the population. It also allows us to observe the evolution of the quality of life from the 19th century to the 21st, so it may be of interest to historians as well.

Dialogues in Urban and Regional Planning Bruce Stiftel, Vanessa Watson, Henri Acselrad, 2006-10-19 Dialogues in Urban and Regional Planning offers a new selection of the best urban planning scholarship from each of the world's planning school associations. The award winning papers presented illustrate the concerns and the discourse of planning scholarship communities and provide a glimpse into planning theory and practice by planning academics around the world. All those with an interest in urban and regional planning will find this collection valuable in opening new avenues for research and debate. This book is published in association with the Global Planning Education Association Network (GPEAN), and the nine planning school associations it represents, who have selected these papers based on regional competitions.

Dictatorships in the Hispanic World Patricia Swier, Julia Riordan-Goncalves, 2013-07-18 This book broaches a comparative and interdisciplinary approach in its exploration of the phenomenon of the dictatorship in the Hispanic World in the twentieth century. Some of the themes explored through a transatlantic perspective include testimonial accounts of violence and resistance in prisons; hunger and repression; exile, silence and intertextuality; bildungsroman and the modification of gender roles; and the role of trauma and memory within the genres of the novel, autobiography, testimonial literature, the essay, documentaries, puppet theater, poetry, and visual art. By looking at the similarities and differences of dictatorships represented in the diverse landscapes of Latin America and Spain, the authors hope to provide a more panoramic view of the dictatorship that moves beyond historiographical accounts of oppression and engages actively in a more broad dialectics of resistance and a politics of memory.

Le Grand Tango María Susana Azzi, Simon Collier, 2000 Combining deft musical analysis and intriguing personal insight, Azzi and Collier vividly capture the life of Piazzolla, the Argentinean musician--a visionary who won worldwide acclaim but sparked bitter controversy in his native land. 42 halftones.

Crime and the Administration of Justice in Buenos Aires, 1785-1853,2006-01-01 Crime and the Administration of Justice in Buenos Aires, 1785-1853, analyzes the emergence of the criminal justice system in modern Argentina, focusing on the city of Buenos Aires as a case study. It concentrates on the formative period of the postcolonial penal system, from the installation of the second Audiencia (the superior justice tribunal in the viceroyalty of Río de la Plata) in 1785 to the promulgation of the Argentine national constitution in 1853, when a new phase of interregional organization and codification began. Through analysis of criminal cases, Barreneche shows how different interpretations of liberalism, the changing roles of the new police and the military, and the institutionalization of education all contributed to the debate on penal reform during Argentina's transition from colony to state. Only through understanding the historical development of legal and criminal procedures can contemporary social scientists come to grips with the struggle between democracy and authoritarianism in modern Argentina.

Urbanismo alemán en Latinoamérica Gabriela Mardones Miranda,2024-10-29 Si bien la arquitectura alemana forma parte de los cascos históricos de muchas ciudades en Latinoamérica —como producto de la influencia de la colonización en el siglo XIX— no es mucho lo que se conoce respecto a sus aportes en materia de urbanismo para la planificación de ciudades que hoy son testimonio de la creatividad de influyentes arquitectos y urbanistas del viejo continente. Las ideas de Joseph Stübben, Werner Benno Lange, Werner Hegemann y Hannes Meyer, entre otros, dejaron huellas en Ciudad de México, Porto Alegre, Lima, Santiago de Chile, Osorno, Montevideo, Rosario y Mar del Plata. El urbanismo o der städtebau, entendido como la ciencia de la planificación y extensión de las ciudades, se originó a raíz de los problemas acarreados por la revolución industrial, casi sincrónicamente en distintos países de Europa entre fines del siglo XIX y principios del XX. Las soluciones planteadas por los especialistas alemanes resultaron ejemplificadoras y fueron importadas, directa o indirectamente, a las escuelas profesionales y gobiernos latinoamericanos para su puesta en práctica. La académica e investigadora Gabriela Mardones, desde la Universidad Austral de Chile, convocó a diversos especialistas en la materia para aunar en esta obra la historiografía de lo acontecido aquellos años en distintas ciudades de nuestro continente, develando cautivadoras historias y datos relevantes que permiten hoy valorar y redescubrir aspectos desconocidos de nuestro pasado urbanístico.

The Ailing City Diego Armus,2011-07-08 The first comprehensive study of tuberculosis in Latin America demonstrates that in addition to being a biological phenomenon disease is also a social construction effected by rhetoric, politics, and the daily life of its victims.

Pensar la Monarquía y gobernarla. Cultura política en la Monarquía de España. Teorías y prácticas Adolfo Carrasco Martínez, Facundo García , Dario Rafael Lorenzo, Gijs Versteegen, Daniel Galván Desvaux , José Antonio Guillén Berrendero, Agustín Jiménez Moreno, María Luz González Mezquita, 2023-11-28 En este volumen recogemos algunas de las posibles líneas de investigación que pueden desarrollarse desde la perspectiva de la cultura política en la Monarquía de España durante el siglo XVII. Se manifiestan en diferentes planos relacionales: entre el rey y los reinos, el rey y los súbditos, el rey y los entornos cortesanos y el rey y la dinastía. El avance de las investigaciones exige la reconsideración de mitos historiográficos arraigados que no pueden sostenerse a fuerza de su reiteración.
