Personas mayores y diversidad funcional física e intelectual durante la transición a la democracia Emilia Martos Contreras,2016-12-21 Esta tesis abarca un largo periodo de estudio desde los orígenes del franquismo hasta la implantación del sistema político democrático, revisando tanto los cambios en el ámbito nacional como la realidad concreta en un espacio local que es la provincia de Almería. Los principales objetos de estudio son la diversidad funcional y la vejez, que actúan como ejes conductores para hacer una aproximación novedosa a la realidad social de la España contemporánea. Esta investigación, pionera en muchos aspectos, maneja un amplísimo fondo documental, que engloba entre otros, fuentes orales, material hemerográfico, audiovisual y archivístico, siendo esta recopilación uno de sus valores añadidos más importantes. Se trata, en su conjunto, de una gran obra compiladora, multidisciplinar en muchos aspectos y que pretende abrir una nueva vía de investigación.
