Marie Brennan

In the Labyrinth of Drakes Marie Brennan, 2016-04-05 Even those who take no interest in the field of dragon naturalism have heard of Lady Trent's expedition to the inhospitable deserts of Akhia. Her discoveries there are the stuff of romantic legend, catapulting her from scholarly obscurity to worldwide fame. The details of her personal life during that time are hardly less private, having provided fodder for gossips in several countries. As is so often the case in the career of this illustrious woman, the public story is far from complete. In this, the fourth volume of her memoirs, Lady Trent relates how she acquired her position with the Royal Scirling Army; how foreign saboteurs imperiled both her work and her well-being; and how her determined pursuit of knowledge took her into the deepest reaches of the Labyrinth of Drakes, where the chance action of a dragon set the stage for her greatest achievement yet.

A Natural History of Dragons Marie Brennan, 2013-02-05 Marie Brennan begins a thrilling new fantasy series in *A Natural History of Dragons*, combining adventure with the inquisitive spirit of the Victorian Age. You, dear reader, continue at your own risk. It is not for the faint of heart—no more so than the study of dragons itself. But such study offers rewards beyond compare: to stand in a dragon's presence, even for the briefest of moments—even at the risk of one's life—is a delight that, once experienced, can never be forgotten. . . . All the world, from Scirland to the farthest reaches of Eriga, know Isabella, Lady Trent, to be the world's preeminent dragon naturalist. She is the remarkable woman who brought the study of dragons out of the misty shadows of myth and misunderstanding into the clear light of modern science. But before she became the illustrious figure we know today, there was a bookish young woman whose passion for learning, natural history, and, yes, dragons defied the stifling conventions of her day. Here at last, in her own words, is the true story of a pioneering spirit who risked her reputation, her prospects, and her fragile flesh and bone to satisfy her scientific curiosity; of how she sought true love and happiness despite her lamentable eccentricities; and of her thrilling expedition to the perilous mountains of Vystrana, where she made the first of many historic discoveries that would change the world forever. Saturated with the joy and urgency of discovery and scientific curiosity.—Publishers Weekly (starred review) on *A Natural History of Dragons* An NPR Best Book of 2013 The Lady Trent Memoirs 1. *A Natural History of Dragons* 2. *The Tropic of Serpents* 3. *Voyage of the Basilisk* 4. *In the Labyrinth of Drakes* 5. *Within the Sanctuary of Wings* At the Publisher's request, this title is

From the Editorial Page of the Falchester Weekly Review (A Lady Trent Story) Marie Brennan, 2016-05-18 A Tor.com original, From the Editorial Page of the Falchester Weekly Review shares the thoughts of the renowned dragon naturalist Lady Trent--whose memoirs continue to be chronicled in Marie Brennan's acclaimed Victorian Age science fantasy series--about the scientific community. After risking the neck of her loved ones and herself during her perilous sea voyage aboard The Basilisk, and the discoveries made at Keonga, Isabella, Lady Trent, returns to Scirland with the aim of publishing her research. And yet, given the level of secret knowledge she now possesses, she is reduced to waiting to reveal her new academic discovery until royal decrees can be lifted and a fraught political situation avoided. In her idle frustration, Isabella vents her spleen upon the shoddy research published by lesser men with swollen heads in local journals. Enjoy the following collection of letters, found in a trunk of mislaid scholarly documents left behind when she removed to Linshire for the season. has always known she, too, would want to make her scholarly mark upon a chosen field of study. When Lord Gleinheigh recruits Audrey to decipher a series of ancient tablets holding the secrets of the ancient Draconeian civilization, she has no idea that her research will plunge her into an intricate conspiracy, one meant to incite rebellion and invoke war. Alongside dearest childhood friend and fellow archeologist Kudshayn, Audrey must find proof of the conspiracy before it's too late.
