

The Passion Of The Western Mind

Jonathan Daly

The Passion of the Western Mind Richard Tarnas, 2010 The most lucid and concise presentation of Western thought. The writing is elegant and carries the reader with the momentum of a novel. 'It really is a noble performance.' - Joseph Campbell

The Passion of the Western Mind Richard Tarnas, 2010-07-01 'The most thrilling narrative of the West's 3000-year odyssey in pursuit of truth accessible to a broad public. . . 'A work of genius.' HELLINIC JOURNAL Here are the great minds of Western civilization and their pivotal ideas, from Plato to Hegel, from Augustine to Nietzsche, from Copernicus to Freud. Richard Tarnas performs the near-miracle of describing profound philosophical concepts SIMPLY but without simplifying them. Ten years in the making and already hailed as a classic, THE PASSION OF THE WESTERN MIND is truly a complete liberal education in a single volume. [This] magnificent critical survey, with its inherent respect for both the 'West's mainstream high culture' and the 'radically changing world' of the 1990s, offers a new breakthrough for lay and scholarly readers alike. . . Allows readers to grasp the big picture of Western culture as if for the first time.' SAN FRANCISCO CHRONICLE

War in Heaven/Heaven on Earth Stephen D. O'Leary, Geln S. McGhee, 2014-12-18 The apocalypse is a motif that lies behind many religious beliefs and practices. 'War in Heaven/Heaven on Earth' theorizes the apocalyptic as it has arisen in a variety of religious traditions, from Native American religion to Islam in Northern Nigeria and new terrorist movements. Millennial theory and history are explored from the perspective of social psychology, sociology and post-modern philosophy. The volume is unique in applying an analysis of millennial themes to a comparative study of religion.

The Other Worldview Peter Jones, 2015-06-24 A must-read for every concerned American--and especially for every Christian who weeps at the graveside of his culture. --R.C. Sproul A cataclysmic change has occurred as our culture has shifted toward belief in Oneism. Every religion and philosophy fits into one of two basic worldviews: Oneism asserts that everything is essentially one, while Twoism affirms an irreducible distinction between creation and Creator. The Other Worldview exposes the pagan roots of Oneism, traces its spread throughout Western culture, and demonstrates its inability to save. For bodily holiness and transformed thinking . . . we depend entirely on one amazing thing: the incredibly powerful message of the Gospel to a sinful world, which is the ultimate expression and goal of Twoism. The only hope is in Christ

alone.

Alexandria 5 David Fideler, 2000-04-01 In ancient Egypt, the city of Alexandria was a flourishing cultural center where philosophical, spiritual, and cosmological teachings flowed together to create vital new syntheses. Today, Alexandria provides a meeting place for everyone who is interested in ancient and modern cosmological speculation, and how the humanities may contribute to contemporary life--Page 4 of cover.

Transformative Sustainability Education Elizabeth A. Lange, 2023-03-28 This book lays out the principles and practices of transformative sustainability education using a relational way of thinking and being. Elizabeth A. Lange advocates for a new approach to environmental and sustainability education, that of rethinking the Western way of knowing and being and engendering a frank discussion about the societal elements that are generating climate, environmental, economic, and social issues. Highlighting the importance of Indigenous and life-giving cultures, the book covers educational theory, transformation stories of adult learners, social and economic critique, and visions of changemakers. Each chapter also has a strong pedagogical element, with entry points for learners and embodied practices and examples of taking action at micro/meso/macro levels woven throughout. Overall, this book enacts a relational approach to transformative sustainability education that draws from post humanist theory, process thought, relational ontology, decolonization theory, Indigenous philosophy, and a spirituality that builds a sense of sacred towards the living world. Written in an imaginative, storytelling manner, this book will be a great resource for formal and nonformal environmental and sustainability educators.

On the Origin of Beauty John Griffin, 2011-10-01 In the light of the looming ecological crisis facing the world today, much of the stunning beauty of the natural world is being lost forever. *On the Origin of Beauty* seeks to confront this crisis through a philosophical enquiry into our perception of natural beauty. Through discussions of numerous fields including the philosophy of science, environmental ethics, rationalism, and Eastern and Western religion, Griffin asserts that Beauty itself may be the catalyst needed to save the globe from destruction.

Return to the One Brian Hines, 2004 In the *Enneads*, 3rd century mystic philosopher Plotinus synthesized a thousand years of accumulated Greek wisdom with his own profound mystical experiences. What is the nature of God? Of spirit? Of soul? In what fashion can God be realized? How can the validity of spiritual experiences be tested? *Return to the One* presents Plotinus's compelling answers to such ageless questions in a refreshing modern style. Whatever your spiritual beliefs, you will find yourself challenged and stimulated by Plotinus's matchless blend of rationality and mysticism.

The Search for Meaning Dennis Ford, 2007 *The Search for Meaning* is an invaluable tool for understanding both the ways people acquire a sense of meaning and the root causes of intractable ethical, political, and cultural conflicts.--BOOK JACKET.

The Case for God Karen Armstrong, 2009-09-22 NATIONAL BESTSELLER • A nuanced exploration of the role of religion in our lives, drawing on insights of the past to build a faith for our dangerously polarized age—from the New York Times bestselling author of *The History of God* Moving from the Paleolithic age to the present, Karen Armstrong details the great lengths to which humankind has gone in order to experience a sacred reality that it called by many names, such as God, Brahman, Nirvana, Allah, or Dao. Focusing especially on Christianity but including Judaism, Islam, Buddhism, Hinduism, and Chinese spiritualities, Armstrong examines the diminished impulse toward religion in our own time, when a significant number of people either want nothing to do with God or question the efficacy of faith. Why has God become unbelievable? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors? Answering these questions with the same depth of knowledge and profound insight that have marked all her acclaimed books, Armstrong makes clear how the changing face of the world has necessarily changed the importance of religion at both the societal and the individual level. Yet she cautions us that religion was never supposed to provide answers that lie within the competence of human reason; that, she says, is the role of logos. The task of religion is “to help us live creatively, peacefully, and even joyously with realities for which there are no easy explanations.” She emphasizes, too, that religion will not work automatically. It is, she says, a practical discipline: its insights are derived not from abstract speculation but from “dedicated intellectual endeavor” and a “compassionate lifestyle that enables us to break out of the prism of selfhood.”

'We Hold These Truths to Be Self-Evident...' Kenneth N. Addison, 2009-02-16 We hold these truths to be self evident... An Interdisciplinary Analysis of the Roots of Racism and Slavery in America delves into the philosophical, historical, socio/cultural and political evolution of racism and slavery in America. The premise of this work is that racism and slavery in America are the result of an unintentional historical intertwining of various Western philosophical, religious, cultural, social, economic, and political strands of thought that date back to the Classical Era. These strands have become tangled in a Gordian knot, which can only be unraveled through the bold application of a variety of multidisciplinary tools. By doing so, this book is intended help the reader understand how the United States, a nation that claims all men are created equal, could be responsible for slavery and the intractable threads of racism and inequality that have become woven into its cultural the fabric.

The Rise of Western Power Jonathan Daly, 2021-01-14 In this second edition of *The Rise of Western Power*, Jonathan Daly retains the broad sweep of his introduction to the history of Western civilization as well as introducing new material into every chapter, enhancing the book's global coverage and engaging with the latest historical debates. The West's history is one of extraordinary success: no other region, empire, culture, or civilization has left so powerful a mark upon the world. Daly charts the West's achievements-representative government, the free enterprise system, modern science, and the rule of

law-as well as its misdeeds: two World Wars, the Holocaust, imperialistic domination, and the Atlantic slave trade. Taking us through a series of revolutions, he explores the contributions of other cultures and civilizations to the West's emergence, weaving in historical, geographical, and cultural factors. The new edition also contains more material on themes such as the environment and gender, and additional coverage of India, China and the Islamic world. Daly's engaging narrative is accompanied by timelines, maps and further reading suggestions, along with a companion website featuring study questions, over 100 primary sources and 60 historical maps to enable further study.

The Uniqueness of Western Civilization Ricardo Duchesne, 2011-02-07 After challenging the multicultural effort to “provincialize” the history of Western civilization, this book argues that the roots of the West’s exceptional creativity should be traced back to the uniquely aristocratic warlike culture of Indo-European speakers.

The Gospel in the Western Context Gert-Jan Roest, 2018-10-02 In *The Gospel in the Western Context*, Gert-Jan Roest focuses on discerning a Western contextual gospel, an endeavour that is very relevant to the current state of Christianity in the postmodern and post-Christendom West. After giving an in-depth analysis and synthesis of how Hendrikus Berkhof and Colin Gunton read the Western context and contextualize their Christology, he develops a gospel-centred model for reading the context. Meanwhile, he makes a creative and much-needed attempt to connect the two disciplines of systematic theology and missiology and convincingly shows that both disciplines cannot only enrich one another but also can give church practitioners insight and wisdom for their tasks.

The Modernization of the Western World John McGrath, Kathleen Callanan Martin, 2015-01-28 This book focuses on the forces of social change and what they have meant in the lives of the people caught in the middle of them from medieval times through our current era of globalization.

The Odyssey of the Western Spirit Jack Meyer, 2019-09-05 *The Odyssey* is a general theory as to how mankind moved from the scarcity of primitive life to the present world of technological abundance. It offers a specific view of psychological life that recurs in the institutional structures of religion, capitalism, and romanticism. A similar theme emerges in the various configurations of the Western world starting with Odysseus on his way home to today’s world of global outreach, a story like no other.

Astrology and Western Society from the First World War to Covid-19 William Burns, 2023-10-11 This book gathers contributions on the topic of astrology in the West during the twentieth and twenty-first centuries, from 1914-2022. It is the first collection exclusively devoted to a period that has been mostly neglected by historians of astrology, who have mostly devoted themselves to the ancient, medieval and early modern periods. Uninterested in vindicating or debunking astrology, contributors consider its cultural impact, its relation to historical events, and the ways in which it has changed in the last century. The broad range of subjects on modern Europe and the US include the relation of astrology with indigenous

thought, interwar Polish astrology, and the relation of American astrologers to COVID. A bibliography of studies of modern astrology on a global basis is also included. This collection is a thoughtful contribution to the history of astrology and the sociology of belief as well as carrying significant implications for twentieth and twenty-first century history broadly.

Western Culture in Gospel Context David J. Kettle, 2011-04-18 Approaching us in sovereign freedom, God comes alive to us, we come alive to God, and all creation comes alive as a sign pointing to God. In the gospel of Jesus Christ, God gives and discloses himself in this immediate way as our ultimate context and host, within the provisional medium of creation. This life-giving gospel is met by blindness, however, among those who live today in a collapsing Western culture. This is because their imaginative world is shaped by habitual assumptions and practices that lie--largely unacknowledged--deep within that culture, and that preclude openness to the gospel. Moreover, Western Christians themselves widely share these assumptions, betraying the gospel into cultural captivity. God calls for the conversion of Western culture to the living gospel. Crucially this must include, as Lesslie Newbigin recognized, a repentance from modern Western assumptions about knowledge. Part One explores seeking, knowing, and serving God, as providing a true paradigm for understanding all human enquiry, knowledge, and action. Part Two examines ten resulting hot spots where conversion from prevailing cultural assumptions is vital for authentic mission to Western culture.
