Mind Your Ps and Qs G.L. Giles, 2008-12-02 There has been frequent debate about what Mind Your Ps and Qs really means. It has come to mean a lot to me over the years as minding my own Ps and Qs, not the dogma of stale thought, became what is truly important to me. So, I have come up with my own definition of Ps and Qs (meaning Poetry and Quotes). Specifically, my own poetry and quotes which I hope will empower others as they have me. In addition, I've included a short story entitled Stripper Witch, and an article entitled More Marketing Advice which will hopefully benefit not only nontraditionally published authors but those traditionally published as well.

The Messianic Reduction Peter Fenves, 2011 The Messianic Reduction is the first study of Benjamin's early philosophy that takes into consideration the full range of his work, with particular emphasis on its complex relation to phenomenology, Kant and neo-Kantianism, and certain developments in mathematics.

The Dispossessed State Sara L. Maurer, 2012-03 Do indigenous peoples have an unassailable right to the land they have worked and lived on, or are those rights conferred and protected only when a powerful political authority exists? In the tradition of John Locke and Thomas Hobbes, who vigorously debated the thorny concept of property rights, Sara L. Maurer here looks at the question as it applied to British ideas about Irish nationalism in the nineteenth century. This book connects the Victorian novel's preoccupation with the landed estate to nineteenth-century debates about property, specifically as it played out in the English occupation of Ireland. Victorian writers were interested in the question of whether the Irish had rights to their land that could neither be bestowed nor taken away by England. In analyzing how these ideas were represented through a century of British and Irish fiction, journalism, and political theory, Maurer recovers the broad influence of Irish culture on the rest of the British Isles. By focusing on the ownership of land, *The Dispossessed State* challenges current scholarly tendencies to talk about Victorian property solely as a commodity. Maurer brings together canonical British novelists—Maria Edgeworth, Anthony Trollope, George Moore, and George Meredith—with the writings of major British political theorists—John Stuart Mill, Henry Sumner Maine, and William Gladstone—to illustrate Ireland's central role in the literary imagination of Britain in the nineteenth century. The book addresses three key questions in Victorian studies—property, the state, and national identity—and will interest scholars of the period as well as those in Irish

studies, postcolonial theory, and gender studies.

The Moneyya Chronicles Bhikkhu Moneyya,2023-02-27 “The Moneyya Chronicles” begins at a time when the drums of the Vietnam War were beating loudly on America’s shores, creating fear and confusion in the hearts of those who were soon to attain manhood. Through the mediums of poetry, prose and painting, Bhikkhu Moneyya explores questions that arose as a natural consequence of the times and describes the path that he chose to answer them, first as a freewheeling traveler, later as an ashram resident and finally as a Theravada Buddhist monk. Transcending the social and political dialectics of daily life, this is a journey of the mind and heart that will rouse, entertain and ultimately beckon the reader onto a path laid out some 2600 years ago, in a land where a good friend was more than just a friend but one who could help a seeker open his eyes to the hidden truth within.

Tradition in the Early Church R.P.C. Hanson,2009-08-01 It will be the aim of this book to distinguish the nature and function of different sorts of tradition within the historic Christian faith. The main task which the book will set itself will be to examine as fairly and as fully as possible the likelihood of the survival of original, authentic tradition within the Christian Church outside the Bible, to see whether there are solid grounds for concluding that independently of the New Testament any considerable or significant amount of original and trustworthy information about Jesus . . . could have survived, and whether it actually has survived. --From the first chapter, Oral Tradition

A Jealous God Pamela R. Winnick,2005-10-30 A look at the personal and professional motivations behind the scientific community’s dogmatic rejection of religion and how this impacts the culture. The age-old war between religion and science has taken a new twist. Once the dedicated scientist-martyr fought heroically against rigid religionists. But now the tables

have turned, and it is established science crusading against religion, pushing atheistic agendas in the classroom, in textbooks, and in the media. This book shows how science has now become a religion of its own—an often fanatical one at that—furiously preaching atheism, punishing dissenters, dictating how and what we should think, and subtly inserting its worldviews in everything from education to entertainment. And, with stunning clarity, it proves that, with billions of dollars up for grabs in the race for stem cell research, intellectual integrity has been replaced with good old-fashioned greed. With sharp insight and completely original reporting, this book defiantly shows the extent to which science is beating down religion and how this systematic tyranny is unmistakably weakening culture and society.

Contesting Europe's Eastern Rim Ljiljana Saric, Andreas Musolff, Stefan Manz, Ingrid Hudabiunigg, 2010-11-15 Since 1989, Europe's eastern rim has been in constant flux. This collection focuses on how political and economic transformations have triggered redefinitions of cultural identity. Using discursive modes of identity construction (deconstruction, reconstruction, reformulation, and invention) the book focuses on the creation of opposition to old and new 'outsiders' and 'insiders' in Europe. The linguistic study of discourse elements in connection with an exploration of the significance of metaphors in anchoring individual and collective identity is innovative and allows for a unique analysis of public discourse in Europe.

Mytho-poetics at Work Renggenier Rittersma, 2018-01-03 In Mytho-poetics at Work Renggenier Rittersma offers an account

of the posthumous fame of the Count of Egmont (1522-1568), whose public decapitation triggered the Dutch revolt. Drawing from numerous European sources – pamphlets, chronicles, and literature – this monograph tries to unravel why and how the alleged freedom fighter became an icon in European thought. It demonstrates that Egmont unfurled an evocative power over several centuries and cultural regions, as his name could be deliberately instrumentalized by different groups of people in order to corroborate their own confessional and political programs. In addition, this book offers the very first systematic study of the phenomenon of mytho-genesis and provides a conceptual model that can be applied to analogous historical myths.

A Step at a Time Jan de Vries, 2011-11-04 Although Jan de Vries finds himself too young for an autobiography, many of his friends and patients have pushed for it. *A Step At A Time* recounts de Vries' amazing journey so far, beginning with his upbringing in Holland - during which he experienced the 'hunger winter' of 1944 - and charting the development of his amazing 40 year career, throughout which he earned a reputation as an enduring guru of alternative medicine. This gripping and highly entertaining book reveals much about the man and why so many turn to him in his role as a respected homeopathic doctor. Whether it is royalty, film stars, sportsmen or the general public, his clinics are all greatly overbooked, making it difficult at times to get an appointment with him. What is the secret of 'the man with the x-ray eyes', who he sees many things that others do not. Is this an extra sense, intuition, or just the experience of over 40 years of dealing with people medically? In almost 40 books written by him in his life so far, de Vries has shared a great deal of his knowledge with the world, which he has gathered by himself via independent research, and through consultation with his great teachers. However, in *A Step At The Time*, he reveals some of the secrets that people have always wanted to know, such as how he can consistently work over 90 hours per week and manage ten clinics throughout Britain. In this candid autobiography, he shares some of the gifts that were given to him and for which he is very thankful.

Light without Heat David Carroll Simon, 2018-06-15 In *Light without Heat*, David Carroll Simon argues for the importance of carelessness to the literary and scientific experiments of the seventeenth century. While scholars have often looked to this period in order to narrate the triumph of methodical rigor as a quintessentially modern intellectual value, Simon describes the appeal of open-ended receptivity to the protagonists of the New Science. In straying from the work of self-possession and the duty to sift fact from fiction, early modern intellectuals discovered the cognitive advantages of the undisciplined mind. Exploring the influence of what he calls the observational mood on both poetry and prose, Simon offers new readings of Michel de Montaigne, Francis Bacon, Izaak Walton, Henry Power, Robert Hooke, Robert Boyle, Andrew Marvell, and John Milton. He also extends his inquiry beyond the boundaries of early modernity, arguing for a literary theory

that trades strict methodological commitment for an openness to lawless drift.
