Children's Books on Ancient Greek and Roman Mythology Antoine Brazouski,Mary J Klatt,1993-11-23 The classical heritage continues to impact modern culture in many ways. This bibliography lists and describes those books on Greek and Roman mythology from the mid-19th century to the present which are useful for introducing children to the classical world. The volume begins with a brief history of children's books on classical mythology in the United States. A chapter then discusses the various techniques through which classical myths were adapted for children. The annotated bibliography follows, with each entry including a critical annotation on how closely the work adheres to the original myth. Each entry also includes an indication of the grade level of each book. Indexes allow the user to locate sources according to title, illustrator, time period, myth, and subject.

1970s Childhood Liza Hollinghurst,2019-03-21 A 1970s childhood was, for many, a life of happy-go-lucky freedom set against a soundtrack of pop music played on a transistor radio dangling from the handlebars of a Raleigh Chopper. It was a playground battlefield of Sindy versus Action Man or a dexterous display of how to handle Clackers without painfully rapping them across the knuckles. After-school television meant a choice of 'Blue Peter' or 'Magpie', while chewing on an Aztec chocolate bar and flicking through Shoot or Jackie magazine. Yet it was also a decade of strikes, the three-day week and the Winter of Discontent which passed most children by unless a power cut meant no television. This fully illustrated book is a celebration of that childhood, its highs, lows and scraped knees, that will readily bring back the forgotten memories of a generation that grew up without mobile phones, the internet and 24-hour shopping.

The Cottage by the Highway and Other Essays on Publishing: 25 Years of Logos Angus Phillips,2015-03-20 Logos – the international journal of the publishing community – celebrates its 25th anniversary in 2015. Since its first publication it has gained a reputation for publishing insightful and clear-headed articles about publishing, and this tradition continues to the present day, with the addition in recent years of academic articles reflecting the growth in the discipline of publishing studies. The present collection provides the opportunity to mark this milestone in the journal's history by reprinting over thirty articles in book form. The selection has been made with a view to representing the full span of the life of the journal, with a good spread across the years of publication from 1990 onwards. The articles selected are ones that have stood the test

of time and have something interesting to say. There is broad international coverage, from Argentina to China, from Iran to Kenya, and a wide selection of topics including publishing, bookselling, libraries, censorship, and book history. The new introduction, written by the journal's editor-in-chief, Angus Phillips, places the articles in perspective, highlighting their currency and foresight. The volume will be essential reading for both industry professionals and students of book history and publishing studies. Featured articles are by Maarten Aascher, Marc Aronson, Diana Athill, Betty Ballantine, Michael Bhaskar, Marie-Françoise Cachin and Sylvie Ducas-Spaes, Henry Chakava, John Curtis, Tomás Eloy Martínez, Joseph J. Island of the Blue Dolphins Scott O'Dell, Sara L. Schwebel, 2016-10-04 This is the first authoritative edition of one of the most significant children's books of the twentieth century. Winner of the 1961 Newbery Medal, *Island of the Blue Dolphins* tells the story of a girl left alone for eighteen years in the aftermath of violent encounters with Europeans on her home island off the coast of Southern California. This special edition includes two excised chapters, published here for the first time, as well as a critical introduction and essays that offer new background on the archaeological, legal, and colonial histories of Native peoples in California. Sara L. Schwebel explores the composition history and editorial decisions made by author Scott O'Dell that ensured the success of *Island of the Blue Dolphins* at a time when second-wave feminism, the civil rights movement, and multicultural education increasingly influenced which books were taught. This edition also considers how readers might approach the book today, when new archaeological evidence is emerging about the Lone Woman of San Nicolas Island, on whom O'Dell's story is based, and Native peoples are engaged in the reclamation of indigenous histories and ongoing struggles for political sovereignty.

Kidding Around Alexander N. Howe, Wynn Yarbrough, 2014-01-16 *Kidding Around: The Child in Film and Media* is a collection of essays generated by a conference of the same title held at the University of the District of Columbia. The works gathered examine a variety of children's media, including texts produced for children (e.g., children's books, cartoons, animated films) as well as texts about children (e.g., feature-length films, literature, playground architecture, parenting guides). The primary goal of *Kidding Around* is to analyze and contextualize contested representations of childhood and children in various twentieth- and twenty-first-century media while accounting for the politics of these narratives. Each of the essays gathered offers a critical history of the very notion of childhood, at the same time as it analyzes exemplary children's texts from the twentieth and twenty-first centuries. These chapters depart from various methodological approaches (including psychoanalytic, sociological, ecological, and historical perspectives), offering the reader numerous productive approaches for analyzing the moments of cultural conflict and impasse found within the primary works studied. Despite the fact that today children are one of the most coveted demographics in marketing and viewership, academic work on children's media, and children in media, is just beginning. *Kidding Around* assembles experts from this inchoate field, opening discussion to traditional and non-traditional children's texts.

American Tabloid Media and the Satanic Panic, 1970-2000 Sarah A. Hughes, 2021-10-27 This book examines the “satanic panic” of the 1980s as an essential part of the growing relationship between tabloid media and American conservative politics in the 1980s. It argues that widespread fears of Satanism in a range of cultural institutions was indispensable to the development and success of both infotainment, or tabloid content on television, and the rise of the New Right, a conservative political movement that was heavily guided by a growing coalition of influential televangelists, or evangelical preachers on television. It takes as its particular focus the hundreds of accusations that devil-worshippers were operating America’s white middle-class suburban daycare centers. Dozens of communities around the country became embroiled in trials against center owners, the most publicized of which was the McMartin Preschool trial in Manhattan Beach, California. It remains the longest and most expensive criminal trial in the nation’s history.

Welcome to the Club Moshe Sonnheim, 2004 If you are a grandparent, or will soon be one, this book will become both a guide and a tool to understanding your role and implementing your grandparenthood.

The Natural History of Make-believe John Goldthwaite, 1996 The Man in the Moon has dropped down to earth for a visit. Over the hedge, a rabbit in trousers is having a pipe with his evening paper. Elsewhere, Alice is passing through a looking glass, Dorothy riding a tornado to Oz, and Jack climbing a beanstalk to heaven. To enter the world of children's literature is to journey to a realm where the miraculous and the mundane exist side by side, a world that is at once

recognizable and real--and enchanted. Many books have probed the myths and meanings of children's stories, but Goldthwaite's *Natural History* is the first exclusively to survey the magic that lies at the heart of the literature. From the dish that ran away with the spoon to the antics of Brer Rabbit and Dr. Seuss's Cat in the Hat, Goldthwaite celebrates the craft, the invention, and the inspired silliness that fix these tales in our minds from childhood and leave us in a state of wondering to know how these things can be. Covering the three centuries from the fairy tales of Charles Perrault to Maurice Sendak's *Where the Wild Things Are*, he gathers together all the major imaginative works of America, Britain, and Europe to show how the nursery rhyme, the fairy tale, and the beast fable have evolved into modern nonsense verse and fantasy. Throughout, he sheds important new light on such stock characters as the fool and the fairy godmother and on the sources of authors as diverse as Carlo Collodi, Lewis Carroll, and Beatrix Potter. His bold claims will inspire some readers and outrage others. He hails Pinocchio, for example, as the greatest of all children's books, but he views C.S. Lewis's *The Chronicles of Narnia* as a parable that is not only murderously misogynistic, but deeply blasphemous as well. Fresh, incisive, and utterly original, this rich literary history will be required reading for anyone who cares about children's books and their enduring influence on how we come to see the world.
