**The Oxford Dictionary of Family Names in Britain and Ireland** Patrick Hanks, Richard Coates, Peter McClure, 2016-11-17 Containing entries for more than 45,000 English, Scottish, Welsh, Irish, Cornish, and immigrant surnames, The Oxford Dictionary of Family Names in Britain and Ireland is the ultimate reference work on family names of the UK. The Dictionary includes every surname that currently has more than 100 bearers. Each entry contains lists of variant spellings of the name, an explanation of its origins (including the etymology), lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century, geographical distribution, and, where relevant, genealogical and bibliographical notes, making this a fully comprehensive work on family names. This authoritative guide also includes an introductory essay explaining the historical background, formation, and typology of surnames and a guide to surnames research and family history research. Additional material also includes a list of published and unpublished lists of surnames from the Middle Ages to the present day.

**Indian and Pakistan Year Book and Who's who** Sir Stanley Reed, 1928 Issues for 1919-47 include Who's who in India; 1948, Who's who in India and Pakistan.

Encyclopedia of Asian American Folklore and Folklife Jonathan H. X. Lee, Kathleen Nadeau, 2010-12-21 This comprehensive compilation of entries documents the origins, transmissions, and transformations of Asian American folklore and folklife. Equally instructive and intriguing, the Encyclopedia of Asian American Folklore and Folklife provides an illuminating overview of Asian American folklore as a way of life. Surveying the histories, peoples, and cultures of numerous Asian American ethnic and cultural groups, the work covers everything from ancient Asian folklore, folktales, and folk practices that have been transmitted and transformed in America to new expressions of Asian American folklore and folktales unique to the Asian American historical and contemporary experiences. The encyclopedia's three comprehensive volumes cover an extraordinarily wide range of Asian American cultural and ethnic groups, as well as mixed-race and mixed-heritage Asian Americans. Each group section is introduced by a historical overview essay followed by short entries on topics such as

ghosts and spirits, clothes and jewelry, arts and crafts, home decorations, family and community, religious practices, rituals, holidays, music, foodways, literature, traditional healing and medicine, and much, much more. Topics and theories are examined from crosscultural and interdisciplinary perspectives to add to the value of the work.

*Dictionary of American Family Names* Patrick Hanks, 2003-05-08 Where did your surname come from? Do you know how many people in the United States share it? What does it tell you about your lineage? From the editor of the highly acclaimed Dictionary of Surnames comes the most extensive compilation of surnames in America. The result of 10 years of research and 30 consulting editors, this massive undertaking documents 70,000 surnames of Americans across the country. A reference source like no other, it surveys each surname giving its meaning, nationality, alternate spellings, common forenames associated with it, and the frequency of each surname and forename. The Dictionary of American Family Names is a fascinating journey throughout the multicultural United States, offering a detailed look at the meaning and frequency of surnames throughout the country. For students studying family genealogy, others interested in finding out more about their own lineage, or lexicographers, the Dictionary is an ideal place to begin research.

The Christians of Pakistan Linda Walbridge, 2012-10-12 In May 1998, John Joseph, the first native Pakistani Catholic bishop, shot himself in front of the courthouse where a Christian had been sentenced to death for blasphemy. This book tells the story of the Christians in Pakistan, with Bishop Joseph as its centerpiece. It is an account of outcastes who sought hope through Christianity, but who now find themselves victims of a struggle to define Islam in Pakistan. The majority of Pakistani Christians are descendants of untouchables converted to Christianity in the late 19th century. In Pakistan a minority religion is linked with low status, perpetuating the Indian Hindu caste system even though the Muslim majority has disassociated itself from all things Hindu and Indian. The book also deals with enculturation in the Pakistani church, the rise of native clergy, conflicts between the local church and Rome, the rise of 'fundamentalist' Islam and the position of women in society and church.

A Person of Pakistani Origins Ziauddin Sardar, 2018-09-01 What does it mean to be a Pakistani? Can it mean more than one thing? And what do others think it means? Ziauddin Sardar explores what makes a Pakistani, and whether it's something one wants or ought to be. Reflecting on his culture and heritage through tales of the Pakistanis in his life, *A Person of Pakistani Origins* is a whirlwind tour of dueling poets, Bollywood films, a bookish auntie who harbors feminist urges, and a vanishing uncle who reappears miles away. Thoughtful and generously laced with humor, this book delves deep into Pakistan's eclectic culture, and the humble insanity of everyday life for a person of Pakistani origins. Sardar richly celebrates the importance of where we come from, and of who we become.

**Pakistani Entrepreneurs** Zafar Altaf, 2023-06-09 First Published in 1983 *Pakistani Entrepreneurs* covers the role of the entrepreneur within Pakistan. His origins, religious and educational background, and family play a more important part in

the development of the Pakistani entrepreneur than is the case with his western counterpart. In particular, the influence of caste was considered in the context of attitudes towards bargaining and credit, knowledge of and information on markets and raw materials. This is a systematic and probing study of efforts at Industrialisation in Pakistan, and of the way entrepreneurs have risen to the challenges of its offers. This book will be of interest to scholars and researchers of Pakistani economics, South Asian economics, and business economics.

Jinnah, Pakistan and Islamic Identity Akbar Ahmed, 2005-08-12 Every generation needs to reinterpret its great men of the past. Akbar Ahmed, by revealing Jinnah's human face alongside his heroic achievement, both makes this statesman accessible to the current age and renders his greatness even clearer than before. Four men shaped the end of British rule in India: Nehru, Gandhi, Mountbatten and Jinnah. We know a great deal about the first three, but Mohammed Ali Jinnah, the founder of Pakistan, has mostly either been ignored or, in the case of Richard Attenborough's hugely successful film about Gandhi, portrayed as a cold megalomaniac, bent on the bloody partition of India. Akbar Ahmed's major study redresses the balance. Drawing on history, semiotics and cultural anthropology as well as more conventional biographical techniques, Akbar S. Ahmad presents a rounded picture of the man and shows his relevance as contemporary Islam debates alternative forms of political leadership in a world dominated (at least in the Western media) by figures like Colonel Gadaffi and Saddam Hussein.

**The New Pakistani Middle Class** Ammara Maqsood, 2017-11-13 Images of religious extremism and violence in Pakistan—and the narratives that interpret them—inform global events but also twist back to shape local class politics. Ammara Maqsood focuses on life in Lahore, where she untangles these narratives to show how central they are for understanding competition between middle-class groups.

**Pakistan Smart Book**, 2010 The Smart Book contains information designed to enhance Soldier's knowledge of Pakistan, including history, politics, country data and statistics, and the military operational environment. The Smart Book concludes with an overview of the culture of Pakistan including religion, identity, behavior, communication and negotiation techniques, an overview of ethnic groups, a regional breakdown outlining each province, a language guide, and cultural proverbs, expressions and superstitions.

**From Chak 29 to Dinkytown** Faiz Khan, 2018-12-27 Professor Faiz M. Khan is a world-renowned medical physicist. He has a passion for delving into cosmology, evolution, and life philosophies. In this book, he recounts his childhood and early education in a small village in Pakistan, his college days in the ancient cities of Multan and Lahore, and his pursuit of getting the highest academic degree that his father had predicted when he was a child. He fulfilled that prediction by receiving his

PhD from the University of Minnesota. Later, his sheer determination to excel in his academic career earned him the highest award from the American Association of Physicists in Medicine, namely the William D. Coolidge Gold Medal. In this book, Professor Khan writes the story of his life. It is his account of both the how and the why of living. From the trajectory of his life, one can surmise that simple beginnings are not a handicap in life.

*A History of Pakistan and Its Origins* Christophe Jaffrelot, 2002 'A History of Pakistan and its Origins' is a comprehensive, detailed and fully up-to-date study of one of the most diverse, volatile and strategically significant countries in the world today. Born in turmoil barely half a century ago, Pakistan seems to be in an interminable pursuit of its own identity and at the same time finds itself a pivotal player in world politics. Its short existence has witnessed much: four coups d' tat; the rise of Islam as a power; tensions between ethnic, religious and separatist movements; the Kashmir conflict and the near-constant war footing with India. This text charts half a century of nation-building in Pakistan, while at the same time placing the country within the context of its relations with the outside world.

How Pakistan Negotiates with the United States Howard B. Schaffer, Teresita C. Schaffer, 2011 How Pakistan Negotiates with the United States analyzes the themes, techniques, and styles that have characterized Pakistani negotiations with American civilian and military officials since Pakistan's independence.

Kinship and Continuity Alison Shaw, 2014-02-04 Kinship and Continuity is a vivid ethnographic account of the development of the Pakistani presence in Oxford, from after World War II to the present day. Alison Shaw addresses the dynamics of migration, patterns of residence and kinship, ideas about health and illness, and notions of political and religious authority, and discusses the transformations and continuities of the lives of British Pakistanis against the backdrop of rural Pakistan and local socio-economic changes. This is a fully updated, revised edition of the book first published in 1988.

*Serving Library Users from Asia* John Hickok, 2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US. While books on serving other target groups in libraries have been published (e.g., disabled, Latino, seniors, etc.), few books on serving library users of Asian heritage have been written. Thus the timely need for this book. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters—each on 24 specific Asian countries/cultures of East, Southeast, and South Asia—with a wealth of resources for understanding, interacting with, outreaching to, and serving library users of each culture. Resources include cultural guides (both print and online), language helps (with sample library vocabulary), Asian booksellers, nationwide cultural groups, professional literature, and more. Resources and suggestions are given for all three types of libraries—public, school, and academic—making this book valuable for all librarians. The demographics of each Asian culture (numbers and distribution)—plus history of immigration and

international student enrollment—is also featured. As a bonus, each chapter spotlights a US public, school, and academic library providing model outreach to Asian library users. Additionally, this book provides a detailed description and analysis of libraries in each of the 24 Asian countries. The history, development, facilities, conditions, technology, classification systems, and more—of public, school, and academic libraries—are all discussed, with detailed documentation. Country conditions influencing libraries and library use are also described: literacy levels, reading cultures, languages and writing systems, educational systems, and more. Based on the author's 15 years of research and travels to Asia, this work is a must-have for all librarians.

**Doctor, Teacher, Terrorist** Sajjan M. Gohel, 2023-12-12 Ayman al-Zawahiri--co-founder of al Qaeda and successor to bin Laden--was one of the most influential terrorists of the modern era. In the first in-depth biography of the Egyptian doctor and ideologue, Sajjan M. Gohel meticulously unpacks al-Zawahiri's long career, which spanned over 50 years, in the growth and evolution of transnational terrorism. From an illustrious Egyptian family, al-Zawahiri chose to rebel against his own society and the international order. Through his travels across multiple continents, the Egyptian found himself in many of the places where history was made. A pioneer of terrorist strategies and tactics, al-Zawahiri left an indelible legacy for al-Qaeda and other terrorists to build upon.
