The Zen Master's Dance Jundo Cohen, 2020-10-20 Zen Master's Dance makes some of Zen's subtlest teaching deeply personal and freshly accessible. Eihei Dogen—the thirteenth-century Japanese Zen Master of peerless depth and subtlety—heard the music of the universe that sounds as all events and places, people, things, and spaces. He experienced reality as a great dance moving through time, coming to life in the thoughts and acts of all beings. It is a most special dance, the dance that the whole of reality is dancing, with nothing left out. All beings are dancing, and reality is dancing as all beings. In *The Zen Master's Dance*, Jundo Cohen takes us deep into the mind of Master Dogen—and shows us how to join in the great and intimate dance of the universe. Through fresh translations and sparkling teaching, Cohen opens up for us a new way to read one of Buddhism's most remarkable spiritual geniuses.

Notes on Nursing What it is, and What it is not Florence Nightingale, 2018-09-21 Reproduction of the original: Notes on Nursing What it is, and What it is not by Florence Nightingale

The Pursuit of Pleasure Rudolph P. Matthee, 2005 From ancient times to the present day, Iranian social, political, and economic life has been dramatically influenced by psychoactive agents. This book looks at the stimulants that, as put by a longtime resident of seventeenth-century Iran, Raphaël du Mans, provided Iranians with damagh, gave them a kick, got them into a good mood. By tracing their historical trajectory and the role they played in early modern Iranian society (1500-1900), Rudi Matthee takes a major step in extending contemporary debates on the role of drugs and stimulants in shaping the modern West. At once panoramic and richly detailed, *The Pursuit of Pleasure* examines both the intoxicants known since

ancient times--wine and opiates--and the stimulants introduced later--tobacco, coffee, and tea--from multiple angles. It brings together production, commerce, and consumption to reveal the forces behind the spread and popularity of these consumables, showing how Iranians adapted them to their own needs and tastes and integrated them into their everyday lives. Matthee further employs psychoactive substances as a portal for a set of broader issues in Iranian history--most notably, the tension between religious and secular leadership. Faced with reality, Iran's Shi'i ulama turned a blind eye to drug use as long as it stayed indoors and did not threaten the social order. Much of this flexibility remains visible underneath the uncompromising exterior of the current Islamic Republic.
