The Communicative Architecture of Policing Cian Ó Concubhair, 2025-08-05 The Communicative Architecture of Policing is a ground-breaking study of police communications and police-media relations in the social media era. It is based on nearly a decade of research on police-media relations, including two years of extended observational study in local newsrooms and police communications departments, and dozens of interviews with police communicators, chief police officers and journalists. This book is the first to undertake a deep ethnography of both police communications and local news media in a single policing area. It also provides an innovative theoretical reappraisal of the mechanics of police-media power relations, grounded in ideas of legitimacy, mass communications and local governing power. The book describes the lived experiences of journalists through the collapse of the local news media in England: declines wrought in large part by the advent of social media. It also describes a crisis of confidence in local journalism and its perceived institutional status in the local community. By contrast, the book charts the emergence of an empowered, professional police communicator class in policing--and its distinctive cultural features--rooted in the mass communications potential of social media. The book weaves together these empirical insights by developing novel approaches to police legitimacy theory and institutional power relations. This book will be of interest to students, scholars and practitioners in the fields of criminology, media studies, communication studies, journalism and policing.

Cop in the Hood Peter Moskos,2009-08-03 When Harvard-trained sociologist Peter Moskos left the classroom to become a cop in Baltimore's Eastern District, he was thrust deep into police culture and the ways of the street--the nerve-rattling patrols, the thriving drug corners, and a world of poverty and violence that outsiders never see. In *Cop in the Hood*, Moskos reveals the truths he learned on the midnight shift. Through Moskos's eyes, we see police academy graduates unprepared for the realities of the street, success measured by number of arrests, and the ultimate failure of the war on drugs. In addition to telling an explosive insider's story of what it is really like to be a police officer, he makes a passionate argument for drug legalization as the only realistic way to end drug violence--and let cops once again protect and serve. In a new afterword, Moskos describes the many benefits of foot patrol--or, as he calls it, policing green.

Quote the World Forevermore AYDI the Watcher ,2022-09-19 Why do I call myself AYDI the Watcher? That's a good question. I call myself that because I observe our world and the way we interact as humans. Years and years of these observations led me to read up on Psychology, politics and human relations. I listened to many prominent psychologists and therapists to hone my ideas, and the result is this book. Now, this is not a traditional book that delves into the subject matters mentioned above, but a collection of inspiring and thought-provoking quotes fleshed out with my thoughts and feelings, these thoughts and feelings touching on human psychology and behaviour. Some of these quotes were taken from my Facebook page, The Watcher (@AYDItheWatcher) and expanded upon and new ones were added to convey my thoughts on this world that we live in and how hierarchies and human structures affect our daily lives. My goal is to get people thinking and see different perspectives, and protect themselves from harm and manipulation. I hope this goal is achieved and

your minds are unlocked. The freer the minds, the better the world.

Defensive Tactics for Today's Law Enforcement Stephen K. Hayes, Joe Niehaus, 2016-11-30 Few of the many defensive tactics books on the market include the training and methods of martial arts. Drawing on the centuries-old techniques of Ninjutsu, *Defensive Tactics for Today's Law Enforcement* offers alternatives to the traditional police defensive tactics taught to most officers. This text stresses relying on natural tendencies in a violent encounter to ensure officer safety and to better utilize the techniques and training officers do receive. By integrating existing training with martial arts expertise, *Defensive Tactics* provides officers access a full complement of techniques to better navigate physical conflict safely and effectively. Intended for law enforcement practitioners, as well as practitioners of any other professions that present a personal security risk, *Defensive Tactics for Today's Law Enforcement* will better equip readers with a diverse range of defensive tactics.

Racial Spectacles Jonathan Markovitz, 2011-06 *Racial Spectacles: Explorations in Media, Race, and Justice* examines the crucial role the media has played in circulating and shaping national dialogues about race through representations of crime and racialized violence. Jonathan Markovitz argues that mass media racial spectacles often work to shore up racist stereotypes, but that they also provide opportunities to challenge prevalent conceptions of race, and can be seized upon as vehicles for social protest. This book explores a series of mass media spectacles revolving around the news, prime-time television, Hollywood cinema, and the internet that have either relied upon, reconfigured, or helped to construct collective memories of race, crime, and (in)justice. The case studies explored include the Scottsboro interracial rape case of the 1930s, the Kobe Bryant rape case, the Los Angeles Police Department's Rampart scandal, the Abu Ghraib photographs, and a series of racist incidents at the University of California. This book will prove to be important not only for courses on race and media, but also for any reader interested in issues of the media's role in social justice.

Understanding and Supporting Law Enforcement Families Robert P. Delprino, 2017-12-27 *Understanding and Supporting Law Enforcement Families*, through a synthesis of the research literature, presents and explores some of the challenges faced by police families as well as developments that have taken place to support them in balancing family and work life. There are demands and requirements from the job over which family members have little control. Shift work, negative public perceptions of law enforcement, changes in the officer's personality as well as living with the potential that their loved one may be injured or killed are among the unique challenges law enforcement families face. These extraordinary life events are discussed as well as the potential physical and psychological reactions to these stressors. In addition to an overview of support programs and services, specific resources from national organizations are provided on support for family members of an officer killed in the line of duty, and organizational policies for the funeral of an officer who commits suicide, and officer domestic violence. This book examines the existing research as a means to clarify issues faced by law

enforcement families and discusses the availability of resources to provide the support these families need and deserve. A great deal of realizing that potential will be dependent upon actively including the law enforcement family in all aspects of the support process. It is not a conventional self-help book but intended for researchers, practitioners, students, and others with interest in the study and support of law enforcement families.

Multitudes Dan Hancox, 2024-10-22 In pursuit of the liberating powers of the crowd Despite what politicians, philosophers and the press have long told us, every peaceful crowd is not a violent mob in waiting. Dan Hancox argues it is time to rethink long-held assumptions about crowd behaviour and psychology, as well as the part crowds play in our lives. The story of the modern world is the story of multitudes in action. Crowds are the ultimate force for change: the bringer of conviviality, euphoria, mass culture and democracy. Behind the establishment's long war against crowds is the work of eccentric proto-fascist Gustave Le Bon. Having witnessed the revolutionary Paris Commune, he declared the crowd barbaric, the enemy of all that was civilized. In the twentieth century, his theory influenced Mussolini, Hitler and Freud alike. It moulded the policing of our communities and the new industry of public relations, shaping our cities and politics. From raucous football matches and raves to rubber-bullet-riddled riots, Dan Hancox takes us into the crowd's pulsating heart to pose the questions that will define our age. Is the madness of crowds real? What did the January 6 insurrection on Capitol Hill share with the Nuremberg rallies? What fresh dangers are posed to free assembly by the surveillance society? And how has a radical new generation of psychologists begun to change everything – even the policing of protests?

Reimagining Journalism in a Post-Truth World Ed Madison, Ben DeJarnette, 2018-02-08 Amidst alternative facts and post-truth politics, news journalism is more important and complex than ever. This book examines journalism's evolution within digital media's ecosystem where lies often spread faster than truth, and consumers expect conversations, not lectures. The 2016 U.S. presidential election delivered a stunning result, but the news media's breathless coverage of it was no surprise. News networks turned debates into primetime entertainment, reporters spent more time covering poll results than public policy issues, and the cozy relationship between journalists and political insiders helped ensure intrigue and ratings, even as it eroded journalism's role as democracy's Fourth Estate. Against this sobering backdrop, a broadcast news veteran and a millennial newshound consider how journalism can regain the public's trust by learning from pioneers both within and beyond the profession. Connecting the dots between faux news, fake news, and real news, coauthors Madison and DeJarnette provide an unflinching analysis of where mainstream journalism went wrong—and what the next generation of reporters can do to make it right. The significance of Donald Trump's presidency is not lost on the authors, but *Reimagining Journalism in a Post-Truth World* is not a post-mortem of the 2016 presidential election, nor is it a how-to guide for reporting on Trump's White House. Instead, this accessible and engaging book offers a broader perspective on contemporary journalism, pairing lively anecdotes with insightful analysis of long-term trends and challenges. Drawing on their expertise in media innovation

and entrepreneurship, the authors explore how comedians like John Oliver, Trevor Noah, and Samantha Bee are breaking (and reshaping) the rules of political journalism; how legacy media outlets like The Boston Globe, The Washington Post, and The New York Times are retooling for the digital age; and how newcomers like Vice, Harken, and De Correspondent are innovating new models for reporting and storytelling. Anyone seeking to make sense of modern journalism and its intersections with democracy will want to read this book.

Transgender Cops Heather Panter, 2018-01-19 Building on comparative research in the U.K. and the U.S.A., this is the first book focused specifically on transgender experiences within policing. It examines the issues faced by the transgender community within policing and explores how gender, and the non-conformity of it, is perceived within police cultures. Moreover, it provides an on-going critique of the queer criminology movement and why it is crucial to policing studies, emphasising the specific importance of transgender issues therein. This empirical book provides qualitative data from American officers and English and Welsh constables on transgender police. The following research questions are addressed: What are the perceptions of cisgender officers towards transgender officers, and what are the consequences of these perceptions? What are the occupational experiences and perceptions of officers who identify as transgender within policing? Finally, what are the reported positive and negative administrative issues that transgender individuals face within policing? The author concludes by discussing the empirical, theoretical and policy contributions of this research and offers some final thoughts on policy recommendations and directions for future research. A strong contribution to the literature in critical criminology and queer criminology, this book will also be of interest to those in the fields of gender studies, sociology, public administration, management studies and policing studies.

A Noble But Onerous Duty Francis K. Sang, 2013 From a humble beginning as a son of employees in white settlers' farms in the central Rift Valley, Dr Francis K. Sang overcame many odds to rise through the ranks of the Kenya Police and

become the 4th Kenyan Director of the Criminal Investigation Department. He served in this position for 4 years before he was transferred to the Ministry of Foreign Affairs after the changeover of government in Kenya at the end of 2002. He was tasked with the establishment of the Nairobi Secretariat to coordinate issues to do with small arms in the region. This he did and later helped transform the secretariat into the Regional Centre for Small Arms (RECSA), a regional inter-governmental body that coordinates activities aimed at controlling and reducing the proliferation of small arms and light weapons in the Eastern Africa, Great Lakes and Horn of Africa region and bordering states. In this autobiography, he relates his experiences, from the difficult circumstances surrounding his birth and childhood, his struggles to get an education in spite of the many obstacles that he faced and his experiences in the police force, particularly in the Criminal Investigation Department (CID) during the tenure of the 2nd President of Kenya, Daniel arap Moi. He also relates his experiences after the NARC Government took over in 2002 and sent most senior security officers in the former government packing, either on retirement or on transfer to other less prestigious positions. He further relates how, through determination, he has been able to achieve his academic dreams which had been deferred earlier in his life owing to financial constraints, culminating in the acquisition of a PhD late in life. He also speaks about the role his family has played in enabling him to achieve all he has in his life. Reflecting on his long journey that has brought him to the place where he is today, the author also gives a number of insights on his work and life. This autobiography should serve as interesting reading to the general public as well as to persons serving in the disciplined forces, considering that it is the first from amongst persons that have served in the police force and risen through the ranks to the very top.

The Scottish Police Officer Daniel Donnelly, 2014-05-16 The structure of policing is undergoing change in Scotland at present and the profile of the police officer differs from that of the past. This book takes an informative approach and offers a unique account and insight into the Scottish police organisation, describing the 'Scottish police officer' from the point of recruitment through to training, development and specialist policing. Written by an ex-senior police officer, this book examines how the qualified police officer goes about his/her daily work policing and how this has changed over time as a result of organised crime, terrorism and the changing priorities of the public and politicians. The contribution of non-police officers such as police civilian staff, auxiliaries and the private sector, plays a key role in the policing of Scotland in the 21st century and is considered at length. As police supervision and management is crucial to the organisation's success, the subjects of personnel development, promotion and management in the police is examined with comment on the suitability of the system in the 21st century. The book concludes with commentary on the future profile of the Scottish police officer and makes some general comparison with their colleagues in the rest of the UK and European Union. This will be an essential text for police officers in Scotland and elsewhere and students and academics in the areas of law, politics, management,

police studies, criminology and criminal justice.
