Becoming an Extraordinary Manager Len Sandler,2007-10-31 Nearly all managers dream of being inspiring leaders who elicit the most from their people. But while they may understand the skills needed to manage their teams, very few know how to put their knowledge into practice. Now, any manager can get exceptional results and make an important contribution to the organization. *Becoming an Extraordinary Manager* focuses not just on “understanding” principles of good management, but on taking action. Readers will learn the basic attitude and skills outstanding managers must know, including: • why it’s critical to be interested in, rather than interesting to, their people • the best ways to motivate their team • effective interviewing techniques • conducting a performance review • time management • introducing change • delegation • thinking and acting about their people positively (the self-fulfilling prophecy) • building a high-performance team • retaining top talent • handling performance problems • listening Lively in style and thorough in content, this is the book that gives every manager a complete guide to avoiding the ordinary and becoming the best.

*Empowerment, Health Promotion and Young People* Grace Spencer,2013-10-30 Globally, young people’s health is an increasing priority area for health practitioners, policy-makers and researchers, and concepts of empowerment feature strongly in international public health discourses on young people’s health. Yet the concept of empowerment remains under-theorized, and its relationship to young people’s health is not well understood. This innovative volume critically examines the concept of empowerment and its relationship to young people’s health. *Empowerment, Health Promotion and Young People* is set out in two main parts. Part one examines differing conceptions of power and empowerment and how these concepts have been variously defined and used in relation to young people’s health and health promotion. Part two offers a new theoretical framework for understanding empowerment as it relates to young people’s health. Drawing together key works in the field and findings from an empirical enquiry on young people’s health, this framework looks at health as it is defined by young people themselves, and offers new directions for empowerment, and critical insights into the field of young people’s health and health promotion. Critically engaging with the concept of power and opening up the debate about the relevance and

effectiveness of using contemporary understandings of empowerment to promote health, this book is suitable for researchers and students of health, sociology, education and youth studies interested in young people's health and health promotion.

*The New Review Economy* Alison N. Novak, 2020-11-02 This book examines third-party review sites (TPRS) and the intersection of the review economy and neoliberal public relations, in order to understand how users and organizations engage the 21st century global review economy. The author applies communication and digital media theories to evaluate contemporary case studies that challenge TPRS and control over digital reputation. Chapters analyze famous cases such as the Texas photographer who sued her clients for negative reviews and activists using Yelp to protest the hunt of Cecil the Lion, to illustrate the complicated yet important role of TPRS in the review economy. Theories such as neoliberal public relations, digital dialogic communication and cultural intermediaries help explain the impact of reviews and how to apply lessons learned from infamous cases. This nuanced and up to date exploration of the contemporary review economy will offer insights and best practice for academic researchers and upper-level undergraduate students in public relations, digital media, or strategic communication programs.

*Prader-Willi Syndrome as a Model for Obesity* U. Eiholzer, D. l'Allemand, W. B. Zipf, 2003-07-14 Almost fifty years ago, in 1956, three researchers of the University of Zurich, Andrea Prader, Alexis Labhart and Heinrich Willi, first described what is now called the Prader-Willi Syndrome (PWS). The study and the therapy of this syndrome have progressed so rapidly in the past years that the decision was made to share recent advances with the scientific community and to address topics of future research at an international meeting. The results of this meeting are presented in this book. PWS results from a paternally derived deletion or an imprinting defect on chromosome 15. During their first two years of life patients with PWS suffer from muscle weakness, feeding problems and developmental delay. From the age of two years onwards they develop an almost insatiable appetite and suffer from obesity, short stature, hypogonadism and behavior problems. As it is becoming increasingly obvious that PWS is a multisystemic disorder, improving the quality of life of patients and their families requires broad professional support. While growth hormone therapy influences growth and body composition, many other problems such as insufficient satiation, hypoactivity, behavioral difficulties, speech problems and mental retardation remain to be addressed. Parents need psychological support in their daily battle against the eating disorder and the behavioral problems of their child. A comprehensive team approach will yield the best results for both patients and their parents. PWS research may also contribute to basic medical research by providing new insights into the metabolism of obese patients, whose obesity is caused by factors other than PWS. In this way, PWS may be used as a model for obesity.

**Media Criticism in a Digital Age** Peter B. Orlik, 2015-07-24 Media Criticism in a Digital Age introduces readers to a variety of critical approaches to audio and video discourse on radio, television and the Internet. It is intended for those preparing for electronic media careers as well as for anyone seeking to enhance their media literacy. This book takes the unequivocal view that the material heard and seen over digital media is worthy of serious consideration. Media Criticism in a Digital Age applies key aesthetic, sociological, philosophical, psychological, structural and economic principles to arrive at a comprehensive evaluation of programming and advertising content. It offers a rich blend of insights from both industry and academic authorities. These insights range from the observations of Plato and Aristotle to the research that motivates twenty-first century marketing and advertising. Key features of the book are comprised of: multiple video examples including commercials, cartoons and custom graphics to illustrate core critical concepts; chapters reflecting today's media world, including coverage of broadband and social media issues; fifty perceptive critiques penned by a variety of widely respected media observers and; a supplementary website for professors that provides suggested exercises to accompany each chapter ([www.routledge.com/cw/orlik](http://www.routledge.com/cw/orlik)) Media Criticism in a Digital Age equips emerging media professionals as well as perceptive consumers with the evaluative tools to maximize their media understanding and enjoyment.

**The Psychopharmacologists 3** David Healy, 2020-10-14 The Psychopharmacologists 3 completes a trio of interview-

based books about the process of therapeutic innovation in clinical psychiatry. David Healy's method is to interview key individuals involved in the discovery and deployment of drugs that have proved useful to psychiatry, and to draw them together within a model of the mechanism and clinical discovery that he uses as an overall framework. These are historical accounts but highly relevant to the clinical psychiatrist of today, emphasising the importance of research, and of the marketing strategies of pharmaceutical companies in formulating disease entities as well as treatments for them.

**Who Cares?** Raissa Page,G.A. Clark,1977-01-01 The reasons for children coming into care are many, so too are the services and provisions that structure their new lives. The manner in which these are applied to individual children varies beyond classification. Care means many different things to many different children, but every child in care today shares the common ground of an early experience of family distress and breakdown. Written by a group of young people in care, this publications provided a platform from which they could speak freely about their hopes, aspirations, contentions, criticisms and fears. As well as detailing their experiences of public care, Who Cares? highlights those aspects of the system that need addressing to ensure that it meets the social, emotional and educational needs of all children and young people. Now available as an ebook.
