In *Light on Life* they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology.

Understanding Vedic Astrology Ayyagari Durga Prasad,2022-11-04 We all know that successful life is a reward for those who take the right decisions and perform the right actions at the right time. In fact, decisions and actions get fructified only if they are done at the right and appropriate time. Our Vedic Rishis have gifted us with the science of Vedic astrology which is time personified and guides us to elect the right time to perform actions according to our time, date and place of birth. As Vedic astrology deals with the effects of planetary movements from time to time on the animate and inanimate things on earth, it clearly explains the relevance of this science in human affairs. This book explains the basic concepts and principles of Vedic astrology in a simple and systematic manner so that we understand them thoroughly and apply them logically to lead a successful life.

Esoteric Principles Of Vedic Astrology Bepin Behari,2013 This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers

presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

The Art of Interpreting Horoscopes Gayatri Devi Vasudev , 2011-01-01 A comprehensive guide to the techniques of astrological interpretation The Art of Interpreting Horoscopes gives, for the first time ever, the definition of a Graha in astrology. Shows how ancient classical dicta can be adapted and applied to contemporary charts to analyse: * Prim-Ministerial Yogas * Neechabhanga Raja Yoga * Adhi Yoga and Celebrity Status * Cases of Crime and Criminals * Crime Investigation * Possibility of Children and IVF * Loss of Children * Marriage from Navamsa Clues * Factors for Love Marriage * Swearing-in charts * Loss of Children India has always been an astrological society but at some point of time in the early part of the 20th century, the educated began to develop a certain distaste for this ancient science, largely because of the educational system in the country which distanced itself from the traditional branches of learning under a mistaken notion that by doing so, it was proving its rational credentials. However astrology being as good a science as any other of the modern ones, has stood the test of time and in recent years has made a resurgent reappearance as a result of my revered father, Father of Modern Astrology, the Late Dr. B. V. Raman's relentless efforts to propagate it as an academic subject. Astrology has now captured the interest of large segments of the educated public. The wave of resurgence has swept away this pseudo-rationalist resistance bringing with it the realization of the invaluable role astrology can play in helping cope with the ills of modern society. There has been some kind of snowballing effect in educated circles, both in our own country as well as in the west, primarily the United States of America, in their eagerness to retrieve, revive and restore Jyotish to its pristine glory. The ancient classical works on the subject are now being eagerly lapped up but the problem begins because of the times when the astrological rules were first formulated being so different from our own. The author has made effort to adapt and apply these rules in the form of dicta, Yogas and combinations to contemporary life in the process seeking to

bridge the gap between the ancient rules and their application value to the present.

How to Judge a Horoscope Volume 2 B. V. Raman, 2016-01-01 How to Judge a Horoscope is a departure from the conventional method of treatment of astrology. It is a study in the use of Horoscope in every man's daily life. The work in two volumes is divided into twelve houses, containing six each in consecutive order. The twelve houses have reference to the material relation of the soul (Jeeva) in its journey from the cradle to the grave. The study of illustrations (charts) makes every point even the omitted rudimentary principles and rules very clear and graspable. Vol II deals with houses VII to XII. The Seventh House represents wife, husband, marriage, sexual diseases, business partner, diplomacy, talent and general happiness. The Eight House indicates longevity, legacies, disgrace, degradation and details pertaining to death. The Ninth rules father, righteousness, religion, fame leadership, Journeys and communications with spirits. The Tenth indicates occupations, profession, honours, foreign travels and means of livelihood. The Eleventh represents means of gains, elder brother and freedom from misery. The Twelfth rules losses, expenditure, sympathy, divine knowledge, moksha and the state after death.

Education and Career in Vedic Astrology Ram Babu Sao, 2025-08-10 Vedic Astrology (Jyotish) is a powerful tool for gaining profound knowledge about every aspect of life. Each person is born with a unique set of psychological tendencies and life potentials. This book "Education and Career in Vedic Astrology" enables the astrologer to know what the Education and Career has in store for the native. The horoscope shows us what we are presently working with, based on our past actions and thoughts. Besides providing deep insight into the past and present, the horoscope can also show future trends of events. Vedic astrology readings of your horoscope can not do much about it, but at least make you aware of the fruitfulness of your potential in the specific direction of education and career. And, with proper mentoring and understanding; you can safeguard

yourself from sacrificing your life just for the sake of money. Before addressing the suitability of a specific arena for the job, business or any other professional activity; the prime requirement is to consider the overall potency of a horoscope for professional matters. Selection of education and career between job and business is a very crucial and important decision of life. Following the planetary strength of your horoscope, Vedic astrology readings are reasonably useful to help you in selecting the best option between job and business. In brief, the following aspects of a horoscope are to be analyzed to find out best suitable option between Job and Business with astrology readings of ascendant, tenth, third, fifth, and sixth Bhava and the nature of all these planets involved. This knowledge can help the individual make use of latent potentials and approach life's challenges with greater care and purpose. By understanding the karmic patterns reflected in the horoscope, it is possible to work with these tendencies and potentials to promote greater peace, prosperity, and happiness in life. The light that is shed on a dire personal situation by Vedic Astrology is priceless. The ancient Vedic system provides a predictive system that can accurately predict the Profession and Career. The timing is calculated with a detailed system of planetary time cycles, called "Dasha." Vedic astrology provides a greater scope, depth and accuracy for predicting the 'Profession and Career', i. e. (i) General type of predictions; (ii) Specific type of predictions and (iii) Stick type of predictions of Profession and Career. Given an accurate birth time, the Dasha system can precisely show when a period of Profession and Career will begin and end, and provide actual dates. Of two people with wonderful careers, great relationship potential and wealth indicated in their charts, one may find his niche early in life, while the other must experience difficult times to finally achieve prosperity later in life. The Vedic system can indicate the timing of Career as well as their extent. It uses the Moon's position as the starting point against the background of a Nakshatra in calculations of the planetary periods within the 120-year potential lifespan. The principles governing Vedic astrology have remained unaltered for thousands of years. Vedic astrology acknowledges only nine planets, such as Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn and the two nodes of the Moon called Rahu and Ketu.

The Art of Prediction in Astrology Gayatri Devi Vasudev, 2012-01-01 Astrology and interest in it have been growing at a pace that does justice to the subject as a discipline of great consequence in handling the complexities and ills of human life and existence. Authoritative works on astrology abound in Sanskrit and several of them have been translated into English by scholars. These translations are a great boon to the diligent student and carry innumerable combinations and dicta covering almost all aspects of life. However, the difficulty lies in their actual application to horoscopes where the skills of the astrology student are challenged to the limit. The Art of Prediction in Astrology is a simple guide to the techniques of interpretation of the horoscope. This book teaches how to apply and interpret some important planetary combinations and dicta found in classical works to practical cases. This shows further how to analyse and understand: *Yogas for fame and lasting reputation, renunciation, spiritual realization, tyranny and homicidal tendencies. *Difficult concepts such as the difference between Resi

and Bhava, Yamaganda and Yamakantaka, the Moon's role in understanding human psychology and behaviours and the nexus between Rahu-Ketu and schizophrenic tendencies. *Eclipses and how they influence the timing of events. *Solar activity and planetary movements in relation to weather, agricultural crops and tsunamis. *Principles of Muhurta and natal horoscopy in making forecasts on the fall and continuance of governments and how Martian movements can trigger terrorist attacks such as that of September 11, 2001. *Simplifies the intricate art of chart delineation with illustrations of important personalities.

Vedic Astrology: The Light of Wisdom Ajay Srivastava, 2022-07-16 Astrology is the study that everything that exists on earth has a meaningful purpose and we are not living in isolation in this universe. This knowledge is for those who want to understand the intricacies of human life. Serious astrology requires in-depth study of texts, scriptures, and some kind of intuition as predictions cannot be based only on mathematical calculations. Astrology believes that everything is controlled by celestial bodies otherwise predictions are completely impossible. This human body is part of existence and the movement of celestial bodies affects us. It is a science as well as art. Time is a great teacher, but it also throws dust on what is not prevalent or what we leave behind. Every now and then we need to hone our skills to stay sharp. Similarly, the knowledge which gets disappears now needs to be uncovered and sharpened. At present, there is a need for a new way of interpretation that is suitable for the changing world and new environment, there is a need for relevant examples which are suitable for the present generation. This book explains astrological principles with a new set of examples in the changing environment so that the present generation can understand the hidden meaning behind the ancient texts.

Star Force on Human Life Ratnam Kandasamy, Aloysius Aseervatham, 2013-07-31 Planets in the cosmos affect the lives on earth; we know that all forms of life on earth are made up of building blocks from planets around the earth. Essentially, these planets therefore exert their control, on the lives of human beings on earth. These planets send electromagnetic radiation and rays to earth, both weak and strong which demonstrates one aspect of their ability to influence lives. Human beings are continuing to understand these effects through many years of analytical work and case studies which is the basis of astrology. Humans are able to reasonably protect themselves from negative impacts of the planets and avoid unwanted effects. Meteorologists, other scientists and astrologists are not playing God; they are studying, understanding, developing and protecting humans on earth from such negative influences. There are many areas of interest for humans; things that affect all of our lives, such as health, wealth, education, married life, childbirth and employment. Making decisions on these areas are also effected as we are using our mind, feelings and personal judgment. Planets essentially affect our mind, hence altering our abilities to make important decisions with positive or negative outcomes. When and how, the planets affect our lives can be understood to a certain extent, through the knowledge of astrology. This book does not cover all aspects of astrology to practice as an astrologer. People with limited or no knowledge of astrology trying to understand astrological jargons and predictions, will find this book useful in understanding the basics of astrology; yet, it also provides an interesting

read for those who have never been previously exposed to astrology.
