

Slave Species Of The Gods

Geoffrey Ashe

Slave Species of the Gods Michael Tellinger, 2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA • Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species, first proposed by Zecharia Sitchin in *The 12th Planet* • Shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA • Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6,000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200,000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold--thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA--which explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with "god," concluding with the epic flood--a perennial theme of ancient myth--that wiped out the Anunnaki mining operations. Tellinger shows that, as humanity awakens to the truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe.

Slave Species of God Michael Tellinger, 2017-07-26 Were humans created by god as SLAVES? Was Abraham the first human SPY? Was Jesus an accidental MESSIAH? Michael Tellinger takes the readers on a remarkable odyssey of the true origins of humankind. He masterfully weaves together a very different tale of our origins, by connecting the dots between history, archaeology, mythology, religion, scientific breakthrough, genetics and the startling information derived from the

Sumerian clay tablets. He points out the critical difference between the GOD with a big G and the gods with a small g, clearing up millennia of confusion and conflict in the name of God. In *Slave Species of god* - Tellerer achieves the following:

- draws clear and startling analogies between new discoveries in genetic engineering and ancient archaeological finds...
- highlights emerging scientific information overlooked in the past...
- unravels the Bible's often obscure stories by linking these to their original forms in Sumerian clay tablets and other prehistoric writings...
- provides explicit answers to why our modern world has become so senseless and chaotic by revealing the very secrets of our prehistory...

While shattering myths about evolution and God, *Slave Species of god* enables evolutionists and creationists to finally co-exist in one pond. The arguments are compelling, simple and refreshing, retracing the path of human evolution from the murky distant past to the religious dogma that haunts humankind today. The question of who we are and where we come from takes on a new meaning as we discover that our DNA may have been manipulated by our CREATOR some 250 000 years ago to produce a less intelligent 'primitive species'. Tellerer delivers compelling evidence that Adam and Eve were not the 'apple' of God's eye as first suggested in Genesis. Tellerer presents the many arguments and evidence succinctly and convincingly, pointing out the difference between 'GOD' and god. How did this genetic manipulation affect humankind? How have we evolved in 250 000 years? Can we achieve immortality? These are just some of the questions answered in this gripping and astonishing work, challenging all those who are looking for new answers in the 21st century.

Slave Species of God Michael Tellerer, 2005 Already proven as a #1 Best Seller in South Africa, this recently released book is well on its way to a repeat performance in the US. This book draws clear and startling analogies between new discoveries in genetic engineering and ancient archaeological finds.

Anunnaki Gods No More Sasha (Alex) Lessin, 2012-11-03 Dr. Lessin explains the Anunnaki's involvement in human history. The giant olden gods--folks with high tech & their heirs--chain us to short, hard lives. The gods rocketed here from the planet Nibiru & bred with Homo Erectus to create us as short term slaves & soldiers. We praised them & killed in their names: Allah = the Sumerian Nannar, Yahweh = Enlil, Adanai = Enki. Read this book & transcend the gods' religions. Sasha Lessin Ph.D (U.C.L.A. Anthropology Ph.D.), author of *Anunnaki: Gods No More* and producer of the hugely popular web site, www.enkispeaks.com, studied with the late Zecharia Sitchin, for many years. Mr. Sitchin asked Lessin to create popular internet, book and college-level courses to revise ancient anthropology. Sitchin asked Lessin to help disseminate written, graphic and traditional stories of ETs, hitherto considered mythic gods on Earth from 450,000 years ago to 300 B.C. as well as the latest findings in astronomy that relate to the planet Nibiru.

Did Extraterrestrials Bring Us to Intelligence on Our Planet? a Scientist Speculates on the Sparse Information Available from Prehistory John F. Caddy Ph.D., 2019-05-01 This book results from my literature search as an interested ecologist into the origin of intelligent life on our planet. I conclude that the evolution of life here was speeded up by

extraterrestrial life forms of advanced intelligence who long preceded us. Through directed panspermia, they inoculated DNA or living cells onto our planet once its surface had cooled adequately—evolution then followed Darwinian processes. Panspermia reduced dramatically the time needed for evolution, given that the time required for unaided synthesis of the hypercomplex DNA molecule would be no less than this planet's current age. It is supposed, however, that as intelligence evolved, galactic influences speeded up the convergence of intelligent terrestrial organisms with similar entities already existing off planet and human space flight and the recent technological revolution was aided by reverse engineering of crashed UFOs. It is concluded that the Earth has had a long history as an incubator for intelligent life, but these species, including us, are obliged to evolve rapidly to intellectual maturity and space-going capabilities to minimize the impacts of periodic catastrophes on their planetary populations. Successive past catastrophes such as periodic Ice Ages, planetary bombardments, and extreme atmospheric temperature fluctuations, all disrupt planetary civilizations. Inspired by reading Sitchin's conclusions on the Anunnaki, it seemed very probable that other intelligent life forms capable of space exploration would become involved in our future. In the form of the Anunnaki, these were conventionally viewed by the first translators of cuneiform writing as the divinities of the ancient Sumerians. From a modern perspective, however, there seems adequate information accumulated by the twentieth century to support Sitchin's idea that they were extraterrestrials from the planet Nibiru, which is possibly rotating around a dwarf star captured by the sun, whose orbit intersects the solar system at long intervals. Following the last Ice Age, an Anunnaki influence is postulated for the very rapid growth of urban civilizations. The sudden transition from hunter-gatherer cultures to large cities in Mesopotamia, India, Egypt, and elsewhere are associated with mathematics, writing, skills in construction, trade and irrigated agriculture—all without extended evolutionary stages. The subsequent growth of Megalithic civilizations worldwide originated by the Anunnaki saw the birth of common supporting technologies not yet understood by contemporary science. Amongst these was the construction of pyramids worldwide similar to those found on Mars. Evidence is accumulating that pyramids were not primarily tombs but, quite possibly, energy generators. A genetic intervention by the Anunnaki converting prehumans to effective workers is addressed in Sumerian accounts. Recent studies of human genotypes support the idea that the prehomínids encountered by the Anunnaki were genetically modified to become useful workers and eventually gave rise to modern human beings. An extensive group of enclosures and associated terraces for food production discovered in southern Africa suggests these may have been constructed to accommodate and feed slave labor working the ancient gold mines in the vicinity. The product was shipped back to their home planet, Nibiru, to be used in monoatomic form to counter a climatic crisis. The subsequent northward African migration of modified humans and Anunnaki to Sumeria and ancient Egypt is mentioned. Early biblical texts from Genesis and the Book of Enoch parallel even earlier Sumerian accounts of actual events, such as those of the Garden of Eden and Noah's Ark. The fable of the Tower of Babel may also stem from an account of Mesopotamian humans erecting a ziggurat

as a signaling device for extraterrestrial vehicles, provoking the Anunnaki to prevent space technology falling into human hands. They dispersed the humans into different communities worldwide, where isolated groups of this relatively short-lived species soon diverged linguistically from a common tongue. This successful Tower of Babel principle is unfortunately at the basis of our mutual incomprehension between different linguistic groups and has fomented many armed conflicts and racial discrimination.

Phantoms in the Night or ETs? Lorraine McAdam, 2023-08-25 Writing *Phantoms in the Night or ETs?* was not easy for author Lorraine McAdam, and what she relates in this book might not be believed by the vast majority of people - which is why she delayed writing it for so long... Indeed, until now, only those in her close, nuclear family had known of the details of her story, which has been a lifelong one. But in her heart she eventually realised that withholding her story - of what she has now come to believe is some form of ongoing ET contact - was no longer an option. And because it seems that the world at large has moved to a more enlightened attitude towards 'abductees' or 'experiencers' who have experienced and gone through this high strangeness, loosely called 'alien contact', McAdam now thinks that the time is ripe to reveal her story. "This is my own simple, truthful, riveting, intriguing, and sometimes frightening account of multiple encounters, and experiences, with beings I believe originate from other worlds and, possibly, other dimensions", she writes. "And yet I am, to all who know me, an ordinary English teacher, wife, and mother. So why me? I have no answer."

Out of Australia Steven Strong, Evan Strong, 2017-01-01 Presents the theory, by looking at strong DNA and archaeological evidence, that modern human beings--Homo sapiens--derived from Australia, rather than Africa--

The Science of Planetary Signatures in Medicine Jennifer T. Gehl, 2017-01-27 A comprehensive guide to the cosmic influences that underlie health and how to apply them for profound health and healing • Examines how ancient and modern traditions of healing interconnect through the doctrine of signatures, "As above, so below" • Reveals how one's astrological chart has implications for personal health and healing • Explains how each sign of the zodiac corresponds not only to parts of the body and its chakras but also to specific plants, herbs, colors, and emotions • Explores how to use sound healing to harmonize astrological imbalances When we look at the vast and intricate cosmos--galaxies, planets, organisms, organs, cells, molecules, atoms--there is a fundamental order, a music or harmony of the spheres. Our cells reflect the images of galaxies seen through our telescopes. We are the microcosm, reflecting the macrocosm of the heavens. Our ancestors understood these patterns and connections between humanity and the universe and developed spiritual and healing traditions in line with these cosmic truths. Yet in the 19th century, knowledge of these connections was set aside as medical science sought to create the "one size fits all" approaches to healing that dominate modern medicine today. In this comprehensive exploration of the celestial influences that underlie health and healing, Jennifer Gehl, with Marc Micozzi, examines how ancient and modern traditions of healing interconnect through the doctrine of signatures, "As above, so below". She reveals how one's

celestial nature--the arrangement of the cosmos at the moment of birth--has implications for personal health and how each sign of the zodiac corresponds to parts of the body, the chakras, and specific plants, herbs, colors, and emotions. She explains how sound re-arranges forms according to the principles of harmony, leveraging not only the human self-regulating capacity to restore health but also that of the Earth to restore balance and harmony. Also explored are the recurrence of geometric forms in nature and how to apply this knowledge in sound healing and medical astrology. Weaving together the threads of ancient science and spirit that formed the original tapestry of medicine, Gehl explains how to restore the cosmic foundations of healing for personal, planetary, and universal health and wellbeing.

The Martians Nick Redfern, 2020-10-01 "This provocative and exciting book . . . makes a startling case for there being life on Mars." —Whitley Strieber, #1 New York Times–bestselling author of *Communion* *The Martians* is an in-depth study of the theory that Mars was once a world that teemed with life. Perhaps, even, life not too dissimilar to ours. Incredibly, the Martians may still be there. Alive. The questions that this book asks and answers include the following: • What kind of society did the Martians have? • What caused their world to become harsh and desert-like? • Did global warming or nuclear war ensure the extinction of the Martians? • Are Martian artifacts strewn about the surface, just waiting to be found by the likes of NASA? • Has NASA already found such evidence, but chosen to withhold such monumental finds from the public and the media? • Could some form of the Martians still exist, deeply below the surface of the planet, in secure installations that allow them to ensure their civilization continues? • What do we know about the Martian environment, its atmosphere, and its landscape? *The Martians* explores the CIA's top-secret search for the Martians, multiple photos of strange anomalies, and the latest revelations about the environment and water on Mars. And most tantalizing of all: Did an ailing Martian race come to Earth in past eons and were they confused with gods? The questions concerning life on Mars—then and now—are many. The answers are astounding.

Reign of the Anunnaki Jan Erik Sigdell, 2018-09-11 Reveals the ongoing alien manipulation of humanity and how we can break free • Explores how the Anunnaki have maintained invisible surveillance over us and how they control our development through religion, secret societies, and catastrophes • Reveals how they feed off our energies and how this ability has allowed them to remain here on Earth as multidimensional entities, enforcing their control invisibly • Explains how they established religion to control us and how Gnostic Christianity--which came from Christ and not the Anunnaki--offers a way out of their matrix of control Cuneiform texts found on clay plates in Mesopotamia tell us about an extraterrestrial race, called the Anunnaki, who came from space to exploit our planet. Through genetic manipulation, they created modern humans from existing earthly life forms to serve them as slaves. They physically left our planet millennia ago, but as Jan Erik Sigdell reveals, their influence and control over humanity is still pervasive and significant. Sigdell explains how the Anunnaki have maintained invisible surveillance over us as well as control over how humanity develops, setting

limits on our evolution and holding back our development by means of manipulation and catastrophes, including the deluge immortalized in the Bible and many other ancient myths. He shows how they still manipulate our politics and affairs via secret societies, such as the Illuminati, and the political elite, such as the Bilderberg Group. Examining ancient descriptions of the Anunnaki as entities that resemble winged reptiles or amphibians, the author also explores their diet and how they feed off blood and the energies given off by lower life forms, such as humans, when they are expressing extreme negative emotions, having sex, or dying. This energy-feeding ability has allowed them to remain here on Earth as multidimensional entities, enforcing their control invisibly. He explains how the Anunnaki established religions as tools for control, setting up the major religions with themselves as “gods” and playing them against each other to keep humanity’s attention away from ongoing Anunnaki manipulation. They have also hidden from us the existence of the true highest creator, who created the cosmos as well as the Anunnaki themselves. The author reveals how the highest creator sent a messenger called Jesus to expose the Anunnaki and show us a way out of their matrix of control through a spirituality based on love, empathy, and sacred sexuality. But the “god” of the Anunnaki defeated this messenger and replaced him with a false Christ. This led to the development of Paulinian Christianity under Anunnaki influence, as well as other parallel religions such as Islam, and the suppression and elimination of the original Christianity, Gnostic Christianity. With the discovery of hidden Gnostic texts and teachings at Nag Hammadi in 1945, the way is now paved for our release from the reign of the Anunnaki.

Eden in the Altai Geoffrey Ashe, 2018-12-11 Reveals how humanity’s first advanced culture originated in the Altai-Baikal

region of southern Siberia • Explores how this prehistoric culture is the source of the pervasive mythic symbolism of the number 7, found in ancient cosmologies and myths around the world • Traces the Altaic influence on the Rishis of India, the creation of the Vedas, and the origin of the sacred legend of Mount Meru • Explains how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the pervasive bear symbolism found throughout the ancient world Myths of a Golden Age, a paradise at the beginning of human existence, are nearly universal in all cultures. But where was this “Eden” located? Refuting the traditional assumption that the cultures of the Middle East and Mycenae filtered northward into Europe and North Asia, noted historian Geoffrey Ashe instead identifies the northern Altai mountain range and Lake Baikal region of southern Siberia as the true cultural home of humanity and the source of the widespread myths of a prehistoric Golden Age. With evidence dating back as far as 24,000 BC, Ashe shows how the culture of prehistoric southern Siberia was matrifocal, Goddess-worshipping, and heavily shamanic and served as the progenitor of advanced ancient culture in the Western world, the missing link that later influenced Indian, Middle Eastern, Native American, and European society, culture, and religion. He reveals how ancient Altaic culture was the source of the pervasive mythic symbolism of the number 7, found in cosmologies and mythological traditions around the world, as well as reverence for the seven stars of Ursa Major, the Big Dipper, and the idea of a “sacred mountain to the North.” He traces the transmission of these cosmological beliefs into Babylon and ancient Greece by migrating tribes, including those that crossed the now-vanished land bridge to the New World. Ashe reveals how this transmission of beliefs had a profound influence on the seven-note musical scale, the seven astrological planets, and the seven vowels of the Greek alphabet, as well as the development of seven as a sacred number in Judaism. He shows how the ancient Altai-Baikal culture influenced the Rishis of India, the creation of the Vedas, and the sacred legend of Mount Meru. He also reveals how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the sacred bear symbolism found throughout the ancient world. Offering proof that advanced cultures existed in Europe before the immigration of Eastern peoples, Ashe shows that early societies did not look into the future for perfection but to the past, to the Golden Age of peace in the sacred northern mountains.

Fsh Muller Walter, 2009-09-15 In this day and age we live in people often wonder if they still need religion, and if so what religion is right? Is there a hundred percent answer to this question? Probably not, but we all can search, and that being what most people are doing, searching between the covers of this book might not be such a bad idea. You will find arguments which might suit you, or not, but you will definitely not be bored. What did Jesus come here to do, and was he allowed to do it? Did Jesus die for our sins, or was he killed because of reasons we do not really know? What could those reasons be? They could be between the covers of this book!

The Routledge Handbook of Progressive Rock, Metal, and the Literary Imagination Chris Anderton, Lori Burns, 2025-02-26 This Handbook illustrates the many ways that progressive rock and metal music forge striking engagements with literary

texts and themes. The authors and their objects of analytic inquiry offer global and diverse perspectives on these genres and their literary connections: from ancient times to the modern world, from children's literature to epic poetry, from mythology to science fiction, and from esoteric fantasy to harsh political criticism. The musical treatments of these literary materials span the continents from South and North America through Europe and Asia. The collection presents critical perspectives on the enduring and complex relationships between words and music as these are expressed in progressive rock and metal. The book is aimed primarily at an academic market, valuable for second- through final-year students on undergraduate courses devoted to both popular music and to literary studies, and to postgraduate programs and researchers in a range of fields, including popular music studies, musicology, creative music performance and composition, songwriting, literary studies, narrative studies, folklore studies, science fiction studies, cultural studies, liberal studies, and sociology, and for media and history courses that have an interest in the intersection of narratives, music, and society.

Transcending the Matrix of the Imposter Gods Lark Aleta Batey, 2023-02-23 The Heart's abilities and power are the new frontier of spiritual exploration in humanities' search for self-understanding. This book offers leading-edge information about the Models of Existence which provides a significant contribution to the body of work about the Power of the Heart. Beginning with an origin myth rooted in ancient history drawn from the works of Sitchin and others and expanded upon with recently revealed revelations from the WingMakers Materials, we learn a little-known story of imposter gods that initially created humanity as slave labor. Through a synthesis of myth, history, psychology, science, religion, and social issues, a picture emerges illustrating how the world of separation and oppression has been maintained to deceive humanity. Heart-centered archetypes are introduced to equip humanity with the tools necessary to transcend the programming of the imposter gods and contribute to an appreciation of why this is so important. A Source-Centered model of existence is offered to assist in our transformation.

Immortality of the Gods Nick Redfern, 2016-12-26 The author of *Bloodline of the Gods* explores the theory that ancient aliens shared the secrets of immortality with Old Testament figures. While scientists debate the theoretical possibility of immortality, it may have already been achieved in the distant past. History is filled with accounts of fantastic beings, powerful gods, and half-human/half-alien entities that had extraordinarily long lifespans. Today, these stories are dismissed as mere folklore and mythology. But what if the accounts are all too real? In *Immortality of the Gods*, Nick Redfern considers the possibility that ancient aliens uncovered the secret to stopping the aging process. Examining the legends of the Anunnaki, Redfern investigates how these ancient deities may have achieved everlasting life, and why they might have shared their secrets with Noah, Methuselah, and other biblical figures. Redfern goes on to explore the saga of Gilgamesh, a long-lived part-human, part-extraterrestrial Sumerian ruler obsessed with immortality. Also in this volume, Redfern studies the claim that an undisclosed motivation for the 2003 invasion of Iraq was to uncover the millennia-old secrets of white

powder gold, a manna-like substance that supposedly rejuvenates cells and tissue.

God's Sacred Plan for Life Ronald Wyenn, 2017-05-23 IN THE BEGINNING, THE KNOWLEDGE OF 'GOOD AND EVIL' THAT MANKIND WAS FORBIDDEN TO KNOW DESTROYED US TIME AND AGAIN. KNOWING WHAT WAS FORBIDDEN --- "GOD'S SACRED PLAN FOR LIFE" WILL STOP US FROM DESTROYING THE WORLD IN THE END! Revealing Heaven's greatest secrets, solving life's epic mysteries --- "God's Sacred Plan For Life" tells an ancient story that no one, past or present, ever heard before! The greatest love story ever told about how good triumphs over evil contains one thing that mankind was forbidden to know by the gods of antiquity who created us --- "The Knowledge of Good (God) and Evil (Man)!" In the beginning, the gods who came from the heavens to earth stopped the natural course of man's evolution. Giving them their alien DNA, the first man and woman were genetically engineered to be a slave-species for their creators who needed an army of primitive workers to do what was impossible to do by themselves. Mine a precious metal used to repair their planet's atmosphere from a nuclear holocaust of their own making. Possessed by the DNA in their blood, the first earthlings were made to follow not lead, serve not disobey. The god's lust for conquest, wealth, power, privilege, and status evolved to dominate human nature. Trained to sacrifice themselves and kill their own kind in the name of the egocentric gods they served, man's soulless patterns of pain, suffering, war, and death were all learned from their inhuman patriarchal masters. Created in their image after their likeness, man destroyed countless civilizations, past and present, to become "The King of The World" just as the gods did on their planet. To change the self-destructive course of man's fate, knowing good from evil will reveal the knowledge of 'God's Dual -Nature' that clergy insist is unknowable; the knowledge of 'Man's Dual-Nature' that psychoanalysts contend is mystifyingly contentious and 'DNA's Dual-Nature' --- The cosmic-connection linking the spirit of God to the body of man, that from the beginning created the conflict between the forces of good and evil. Knowing what was unknown before will change people's egocentric SELFimage. Changing man's inhuman, alien nature mental illness, physical sickness, and spiritual disease will become relics of the past --- Stopping us from destroying all we love and cherish most ourselves, mates, children, families, world, and future. Making the impossible possible God's plan for a better life will prove to be the mother of all SELFhelp, SELFhealing, and SELFtransformational technologies for one unprecedented reason --- "What was forbidden in the beginning that destroyed us is present in the end to save us!"

Gift of Mind Lawrence Delville Hood, 2018-02-23 The purpose of this book is to allow you some time to reflect on the vastness of the COSMOS. To travel within yourself quieting everything around you. To know there is only MIND and GOD. To understand that there is only ONE single sin that will affect you greatly. As it will lead you either to salvation/NIRVANA or damnation/ SUFFERING. That sin is not to KNOW GOD. It is vital to know that only each soul themselves, by THEIR OWN efforts CAN MAKE THIS HAPPEN. Teachers, Masters and friends can help you on the path. God only, together with yourself, can bring you to salvation. Your mind in yourself is a projection of the mind of God, This God mind is light, everything else

flows from that.

Awakening of a Warrior Michael Jaco, 2023-10-01 Numerous great thinkers have believed in the transmigration of the soul. General Patton, Gandhi, Henry Ford, the Dalai Lama, all discussed memories of, or beliefs in, having past lives. The great philosophers Pythagoras, Socrates, Plato, Aristotle, and even Saint Augustine believed in the rebirth of the soul. *Awakening of a Warrior* is the result of Jaco's investigation—his treasure hunt—into the lifetimes he experienced before the present. Included are his lives as King Abimelech of Gerar, who allied with Abraham in the creation of a new religion called Judaism; Cyrus the Great, who unified all of Persia and implemented Zoroastrianism as the state religion; and Marcus Furius Camillus, who came to be considered the second founder of Rome.
